Portland Self Employment Guide:

Running the Numbers: A Practical Guide to Regional Economic and Social Analysis: 2014 John Quinterno, 2014-12-18

Through use of practical examples and a plainspoken narrative style that minimises the use of maths this book demystifies data concepts sources and methods for public service professionals interested in understanding economic and social issues at the regional level By blending elements of a general interest book a textbook and a reference book it equips civic leaders public administrators urban planners nonprofit executives philanthropists journalists and graduate students in various public affairs disciplines to wield social and economic data for the benefit of their communities While numerous books about quantitative research exist few focus specifically on the public sector Running the Numbers in contrast explores a wide array of topics of regional importance including economic output demographics business structure labour markets and income among many others To that end the book stresses practical applications minimises the use of maths and employs extended chapter length examples that demonstrate how analytical tools can illuminate the social and economic workings of actual American regions *Resources in Education* ,2001-10 *Design Guidelines in American Cities* John Punter,1999-01-01

This book is a study of design initiatives and policies in five US West Coast cities Seattle including Bellevue Portland San Francisco Irvine and San Diego all of which have had particularly interesting urban design experience of relevance to practice in Britain and other countries Although these cities are not a representative sample of all American design practice they provide a rich vein of ideas about recent policy development and current initiatives which will stimulate thought about the formulation of effective design controls The presentation of substantial extracts from key documents that underpin design controls in the five cities will be of interest inspiration and practical use to academics and practitioners who want to know more about American practice and who want to contribute to improvements in the standards and quality of urban design policies and design control The opening chapter provides a national context and a comparative framework for the study with a focus on international perspectives American planning systems and the development of criteria for comparison and evaluation The five subsequent chapters take each city in turn briefly reviewing the salient characteristics of each one before presenting an account of how planning and design policy have evolved in the last twenty five years key features of the contemporary systems of design control are highlighted and a summary evaluation is made The focus in the case studies is on how policy and guidance have been formulated structured and presented in the various documents that make up the policy framework how the process of control operates and how both respond to the criticisms commonly made of design and control This final chapter draws general conclusions about the experience of the studied cities of wider relevance to American design review practice but which are of interest to those engaged in design review and policy formulation everywhere **Working**

Portland's Woodlawn Neighborhood Anjala Ehelebe, 2008 Portland's Woodlawn neighborhood has transformed from a small autonomous city at the end of the streetcar line to a large firmly middle class district of mostly mid-sized post-World War II homes and a few notable Victorian gingerbread trimmed houses a former farmhouses that once sat on muddy streets Woodlawn's quirky angled streets remind residents of a time when the streetcar depot was a major feature of the city Today an excellent bus service has replaced the streetcars but most neighbors still enjoy the sounds of the trains at the bottom of the bluff bringing grain to the shipyards and the sweet fragrances wafting down from the cookie factory The movie theater and firehouse are still standing but both now serve different purposes This is a neighborhood where new families are made welcome by the current ones and where a new generation of volunteers is planning a vital and compassionate neighborhood

Decent Flexibility Dr Fred C. A. van Haasteren, 2017-07-30 Within the context of social law temporary agency work has always been subject of debate The pursuit of more flexible forms of labour is at odds with maintaining decent labour relations For that reason ever since it was established the UN organisation for labour issues ILO has focused on private work placement In its early years it tended to prohibit or severely restrict private work placement but gradually it came to acknowledge that for instance temporary agency work had positive aspects and that a total ban was pointless In 1997 this culminated in ILO convention 181 which was widely supported This did not end the debate on non standards forms of paid work Which forms of work can be considered decent How do they relate to human rights What are the effects of globalisation In the European context too cross border temporary agency work has attracted extensive attention Lastly the Netherlands has its own unique form of public private regulation The guiding principle in this book is whether Convention 181 still has value in this day and age What are the developments in temporary agency work in the social domain How do they relate to the wide range of flexible work forms that are increasingly catching up with temporary agency work Decent flexibility is the challenge Dr Fred van Haasteren 1949 started his career as a scientific associate at the Society and Enterprise Foundation SMO From 1978 onward he worked in the Dutch temporary agency sector In 1982 he became a board member of Randstad Nederland in 1991 he became Vice President of Randstad Holding Among other things he was also President of the platform of European temporary agency employers and of the global temporary agency employer

umbrella organisation CIETT He is still a board member of the Dutch Labour Standards Foundation SNA and an independent member of the NCP OECD The social policy pursued by temporary employment agencies has always been at the centre of his activities
