Romance's Rival Talia Schaffer, 2016-01-05 Romance's Rival argues that the central plot of the most important genre of the nineteenth century the marriage plot novel means something quite different from what we thought In Victorian novels women may marry for erotic desire but they might instead insist on familiar marriage marrying trustworthy companions who can offer them socially rich lives and futures of meaningful work Romance's Rival shows how familiar marriage expresses ideas of female subjectivity dating back through the seventeenth century while romantic marriage felt like a new risky idea Undertaking a major rereading of the rise of the novel tradition from Richardson through the twentieth century Talia Schaffer rethinks what the novel meant if one tracks familiar marriage virtues This alternative perspective offers new readings of major texts Austen the Brontës Eliot Trollope but it also foregrounds women's popular fiction Yonge Oliphant Craik Broughton Offering a feminist perspective that reads the marriage plot from the woman's point of view Schaffer inquires why a female character might legitimately wish to marry for
