Pooley,2010-06-08 In The Climate War Eric Pooley deputy editor of Bloomberg BusinessWeek does for global warming what
Bob Woodward did for presidents and Lawrence Wright did for terrorists In this epic tale of an American civil war Pooley
takes us behind the scenes and into the hearts and minds of the most important players in the struggle to cap global warming
pollution a fight in which trillions of dollars and the fate of the planet are at stake Why has it been so hard for America to
come to grips with climate change Why do so many people believe it isn't really happening As President Obama's science
advisor John Holdren has said We're driving in a car with bad brakes in a fog and heading for a cliff We know for sure that
cliff is out there We just don't know exactly where it is Prudence would suggest that we should start putting on the brakes
But powerful interests are threatened by the carbon cap that would speed the transition to a clean energy economy and their
agents have worked successfully to deny the problem and delay the solutions To write this book Pooley the former managing
editor of Fortune and chief political correspondent for Time spent three years embedded with an extraordinary cast of
characters from the flamboyant head of one of the nation's largest coal burning energy companies to the driven
environmental leader who made common cause with him from leading scientists warning of impending catastrophe to
professional skeptics disputing almost every aspect of climate science from radical activists chaining themselves to
bulldozers to powerful lobbyists media gurus and advisors in Obama's West Wing and to top it off unprecedented access to
former Vice President Al Gore and his team of climate activists Pooley captures the quiet determination and even heroism of
climate campaigners who have dedicated their lives to an uphill battle that's still raging today He asks whether we have what
it takes to preserve our planet's habitability and shows how America's climate war sends shock waves from Bali to
Copenhagen No other reporter enjoys such access to this cast of characters No other book covers this terrain From the
trenches of a North Carolina power plant to the battlefields of Capitol Hill Madison Avenue and Wall Street The Climate War
is the essential read for anyone who wants to understand the players and politics behind the most important issue we face
