Sandf Intergration For 2015:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention of military veterans, looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Silencing the Guns in Africa Antonio Garcia, Jacob Udo-Udo Jacob, 2025-03-14 The scholarship of this book is drawn from local and international experts by framing critically a number of discourses on matters of security, conflict, violence and peace on the African continent. It is indeed a breath of fresh air to the scientific community, largely because it contributes to the on-going debates on security issues. Dr Ntsikelelo Benjamin Breakfast, Director of the Center for Security, Peace and Conflict Resolution at Nelson Mandela University. This book makes a deep contribution to scholarly literature on

conflict studies peacekeeping and peacebuilding in Africa Written largely from the perspective of the applied social sciences it is empirically rich and offers refreshing insights into social behaviour in military contexts This is a timely contribution because current public discourse in South Africa is centred on the gains and missed opportunities of thirty years of democracy and new lenses are welcome Many of the chapters reflect South African experiences This is to be welcomed as it demonstrates that scholars and practitioners from the country are reflecting on the complexities of South African experiences of defence and security matters in contemporary times Dr Sandy Africa Director of Research at Mapungubwe Institute for Strategic Reflection MISTRA This volume brings together the voices of scholars and practitioners a diverse group of writers who are passionate about and committed to creating a safer more prosperous and peaceful Africa Each with their own specialism this work combines many different world views and approaches Conflict in Africa is an impossibly broad topic to cover in a single edited publication and so we focus on a select number of case studies expositions and themes

Reforming Civil-Military Relations in New Democracies Aurel Croissant, David Kuehn, 2017-03-20 This book addresses the challenge of reforming defense and military policy making in newly democratized nations By tracing the development of civil military relations in various new democracies from a comparative perspective it links two bodies of scholarship that thus far have remained largely separate the study of emerging or failed civilian control over armed forces on the one hand and work on the roots and causes of military effectiveness to guarantee the protection and security of citizens on the other The empirical and theoretical findings presented here will appeal to scholars of civil military relations democratization and security issues as well as to defense policy makers

The Routledge Handbook of Civil-military Relations Thomas C. Bruneau, Florina Cristiana Matei, 2013 The Routledge Handbook of Civil Military Relations not only fills this important lacuna but offers an up to date comparative analysis which identifies three essential components in civil military relations 1 democratic civilian control 2 operational effectiveness and 3 the efficiency of the security institutions This Handbook will be essential reading for students and practitioners in the fields of civil military relations **Women and Gender Perspectives in the Military** Robert Egnell, Mayesha Alam, 2019-02-01 Women and Gender Perspectives in the Military compares the integration of women gender perspectives and the women peace and security agenda into the armed forces of eight countries plus NATO and United Nations peacekeeping operations This book brings a much needed crossnational analysis of how militaries have or have not improved gender balance what has worked and what has not and who have been the agents for change The country cases examined are Sweden the Netherlands Canada the United States the United Kingdom Israel Australia and South Africa Despite increased opportunities for women in the militaries of many countries and wider recognition of the value of including gender perspectives to enhance operational effectiveness progress has encountered roadblocks even nearly twenty years after United Nations Security Council Resolution 1325 kicked off the women peace and security agenda Robert Egnell Mayesha Alam and the contributors to this volume conclude that there is no single model for change that can be applied to every country but the comparative findings reveal many policy relevant lessons while advancing scholarship about women and gendered perspectives in the military **Apartheid's Black Soldiers** Lennart Bolliger, 2021-10-01 New oral histories from Black Namibian and Angolan troops who fought in apartheid South Africa's security forces reveal their involvement and its impact on their lives to be far more complicated than most historical scholarship has acknowledged In anticolonial struggles across the African continent tens of thousands of African soldiers served in the militaries of colonial and settler states In southern Africa they often made up the bulk of these militaries and in some contexts far outnumbered those who fought in the liberation movements armed wings Despite these soldiers significant impact on the region's military and political history this dimension of southern Africa's anticolonial struggles has been almost entirely ignored in previous scholarship Black troops from Namibia and Angola spearheaded apartheid South Africa's military intervention in their countries respective anticolonial war and postindependence civil war Drawing from oral history interviews and archival

sources Lennart Bolliger challenges the common framing of these wars as struggles of national liberation fought by and for Africans against White colonial and settler state armies Focusing on three case studies of predominantly Black units commanded by White officers Bolliger investigates how and why these soldiers participated in South Africa s security forces and considers the legacies of that involvement In tackling these questions he rejects the common tendency to categorize the soldiers as collaborators and traitors and reveals the un national facets of anticolonial struggles Finally the book s unique analysis of apartheid military culture shows how South Africa s military units were far from monolithic and instead developed distinctive institutional practices mythologies and concepts of militarized masculinity
