900-MHz Cordless Telephone with Caller ID

IMPORTANT

Charge the handset battery for 12 continuous hours prior to first use.

SANYO Canada Inc.

www.sanyocanada.com

INTRODUCTION

Congratulations on your purchase of this Sanyo cordless telephone.

Your Sanyo 900-MHz cordless telephone is a fine-quality home communications product. It is carefully designed and produced by a world leader of consumer and industrial electronics equipment. With proper maintenance and care, it will provide you with years of enjoyment and convenience.

Main Features

900-MHz Technology

Extended Range - The use of 900-MHz frequency band for signal transmission between base and handset means greater communication range compared to conventional 42 - 48 MHz cordless telephones.

Ultra-Low Noise - The high frequency communication has also significantly reduced noise level.

40-Channel Auto/Manual Scan - Your new telephone uses one of 40 channels in the 900-MHz frequency band. It automatically selects a clear channel every time you receive or place a call on the handset.

COMPANDER PLUS Noise Reduction

This fourth generation of the Sanyo's original noise reduction technology now filters out more background noise.

- Caller ID* and Caller ID with Call in Progress*
(*Each feature works with your telephone system.
A subscription is required.)
- 40-number Caller ID list
- 10-name/number directory
- Lighted keypad (CLT-9925 only)
- 3-line bilingual display
- Ringer on/off switch
- Wall-mountable
- Belt clip (CLT-9925 and 9935 only)

Important:

To use all of the features of this phone, you must subscribe to either the current Name/Number Caller ID Service or Caller ID with Call Waiting Service. To activate a calling while you are on a phone, you must subscribe to Caller ID with Call Waiting Service.

GETTING STARTED

Checking the package contents

Make sure your package includes the items shown here.

Modular jack

To properly connect your phone to your telephone lines, you will need an RJ11 type modular phone jack. If you do not have a modular jack, call your local phone company to find out how to get one installed.

Installation note: Avoid places near electrical equipment such as refrigerators, computers, TVs or fluorescent lamps. These may cause interference or reduce the operating range of the cordless telephone.

Digital Security System

Your cordless phone uses a digital security system to provide protection against false ringing, unauthorized access and changes to your phone lines.

When you place the handset in the base, the unit verifies its security code. After a power outage or battery replacement, place the handset in the base for about 20 seconds to reset the code.
