HISTORY

The recorder is a wind instrument with a long history. It was very popular in the Middle Ages and Renaissance. Henry VIII had a large collection of recorders. Shakespeare mentioned the recorder in his works.

The main members of the recorder family are the soprano, alto, tenor, and bass recorders. Soprano recorder is a good choice for children because the holes are close together and it is least expensive.

This "Raining" starts with a **PICK-UP**. A pick-up is an incomplete measure at the beginning of a song.

It's Raining

Traditional

Hiding the Stone

One person may strike a hand drum on the first beat of each measure or, for more interest, strike as indicated by the symbols above the notes.

Extracellular Matrix Protocols Charles Streuli, Michael Grant, 2008-02-05 It is now widely accepted that much of the dynamic function of cells and tissues is regulated from outside the cell by the extracellular matrix In addition to its conventional role in providing a scaffold for building tissues the extracellular matrix acts as a directional highway for cellular movement and provides instructional information for promoting survival proliferation and differentiation Indeed the extracellular matrix is beginning to take a starring role in the choreography of cell and tissue function The diverse roles of the extracellular matrix are reflected in its highly complicated

structure consisting of an ever increasing number of components Yet the mechanisms of extracellular matrix assembly and how they influences cell behavior are only just beginning to be understood In order to solve these problems new methodologies are of necessity being developed Many of these technologies are highly sophisticated and are currently available only in a ha ful of laboratories However we believe that they can readily be transported and established by other researchers Thus the purpose of Extracellular Matrix Protocols is to present some of these complicated techniques in a style that is relatively easy to reproduce Electronic Measurements and Instrumentation Uday A.
