

Observing Human Traits Lab

How much do traits vary in your classroom?

Traits are physical characteristics you inherit from your parents. In this investigation, you will take an inventory of your observable traits and compare these to the observable traits of your classmates. You will then take inventory of students and teachers in your school. Finally, you will determine the frequency of each trait in your school's population.

Observing your own traits

- a. The graphic below shows seven different human traits. Each trait has two different forms. Study the chart below, then follow the procedures carefully.

Microbiological Safety in U.S. and Foreign Laboratories G. Briggs Phillips, 1961 A study of microbiological safety in 102 laboratories in 18 countries shows that methods used to control laboratory accidents and illnesses vary widely and that only a few laboratories are reasonably successful Considering the various available approaches for improving safety in the handling of infectious microorganisms there is need for critical experimental evaluation to determine under what conditions improvements are or are not desirable and the effectiveness of those changes made Of special interest to the Department of the Army would be the ability of laboratories throughout the free world to operate safely with infectious microorganisms under non peacetime conditions Through continued analysis of the world wide status of microbiological safety and through improved communications with foreign laboratories the Biological Laboratories could gather information applicable in its safety program and make a significant contribution to the ability of other laboratories to safely carry out biological defense programs Author

Argument-driven Inquiry in Biology Victor Sampson, 2014-04-01 Are you interested in using argument driven inquiry for high school lab instruction but just aren't sure how to do it You aren't alone This book will provide you with both the information and instructional materials you need to start using this method right away Argument Driven Inquiry in Biology is a one stop source of expertise advice and investigations The book is broken into two basic parts 1 An introduction to the stages of argument driven inquiry from question identification data analysis and argument development and evaluation to double blind peer review and report revision 2 A well organized series of 27 field tested labs that cover molecules and organisms ecosystems heredity and biological evolution The investigations are designed to be more authentic scientific experiences than traditional laboratory activities They give your students an opportunity to design their own methods develop models collect and analyze data generate arguments and critique claims and evidence Because the authors are veteran teachers they designed Argument Driven Inquiry in Biology to be easy to use and aligned with today's standards The labs include reproducible student pages and teacher notes The investigations will help your students learn the core ideas crosscutting concepts and scientific practices found in the Next Generation Science Standards In addition they offer ways for students to develop the disciplinary skills outlined in the Common Core State Standards Many of today's teachers like you want to find new ways to engage students in scientific practices and help students learn more from lab activities Argument Driven Inquiry in Biology does all of this even as it gives students the chance to practice reading writing speaking and using math in the context of science
