International Marine Organizations K.A. Bekiashev, V.V. Serebriakov, 2012-12-06 In the last few years the quantity of books and papers on the political economic and legal problems of the exploration and use of the sea and marine resources has considerably increased But the status and activities of international organizations related to maritime shipping fisheries scientific research in the World Ocean and the protection of the marine environment have not yet as a whole been represented in the scientific and reference literature It would be fair though to mention that some general information on marine international organizations may be found in the Yearbook of International Organizations Brussels 1979 in Annotated Acronyms and Abbreviations of Marine Science Related International Organizations U S Department of Commerce 1976 and in the UN Annotated Directory of Intergovernmental Organizations Concerned with Ocean Affairs 1976 Voluminous information on organizations engaged in problems of the exploration and use of the sea is given in International Marine Organizations by the well known Polish scientists Lopuski and Symonides 1978 Meanwhile the increasing volume of practical work related to the participation of governmental and scientific bodies as well as individual scientists and specialists in these organizations the necessity of long term planning in this field and the perspectives of the development of these organizations make necessary a special publication depicting the structure and many sided activities of such international bodies This book is the first one in which the most complete information on the main marine international organizations is presented

Mooring Equipment Guidelines , 1997-01-01 **Jetties and Wharfs** Crow, 2021-04-04 For centuries jetties and wharfs

have been designed and built around the world and play an important role in contemporary ports The difference in the use of jetties piers and wharfs is that jetties are frequently used for the transshipment and storage of light materials and ro ro traffic while piers are generally used for heavy loads like iron ore That is why piers are mostly designed and constructed like quay walls which are beyond the scope of this handbook The designs were originally based on trial and error and the insights of those who dared to conquer local conditions such as wind waves currents and soil composition Design and construction techniques have since evolved into the designs we see on the coast or in river ports and seaports nowadays The purpose of this handbook is to provide insight and guidelines regarding aspects that are important in the design of jetties and wharfs Jetty specific issues such as loads interfaces between materials installations on jetties and wharfs as well as detailing aspects are also covered This handbook is part of a series of Dutch port infrastructure design recommendations that include the Quay Walls handbook and Jetties and Wharfs handbook **Lloyd's Register OneOcean's Guide to Port Entry 1995-96**
