remains Lancaster's predominant tourist attraction but is at odds with its rapidly rising population and the commercial and residential growth that has brought it. It is the tension between rural tradition, progress, and urbanization that lies at the core of Garden Spot. David Walbert examines how twentieth-century American culture has come to define and appreciate rurality and how growth and economic expansion can co-exist with preservation of the traditional ways of life in the region. Will small farms fail in a culture that has increasingly come to value productivity over quality of life? What impact will further development have on maintaining this region's character? Can rurality and progress co-exist in the 21st century? A vivid portrayal of the land and people, residents and outsiders alike, Garden Spot narrates the history of this region and considers the challenges Lancaster County and its people face in order to preserve their unique place.
