Christianity in Crisis Hank Hanegraaff, 2012-06-18 Nearly two decades ago Hank Hanegraaff's award winning Christianity in Crisis alerted the world to the dangers of a cultic movement within Christianity that threatened to undermine the very foundation of biblical faith But in the 21st century there are new dangers new teachers who threaten to do more damage than the last These are not obscure teachers that Hanegraaff unmasks We know their names We have seen their faces sat in their churches and heard them shamelessly preach and promote the false pretexts of a give to get gospel They are virtual rock stars who command the attention of presidential candidates and media moguls Through make believe miracles urban legends counterfeit Christs and twisted theological reasoning they peddle an occult brand of metaphysics that continues to shipwreck the faith of millions around the globe God cannot do anything in this earthly realm unless we give Him permission Keep saying it I have equality with God talk yourself into it Being poor is a sin The Jews were not rejecting Jesus as Messiah it was Jesus who was refusing to be the Messiah to the Jews You create your own world the same way God creates His He speaks and things happen you speak and they happen Christianity in Crisis 21st Century exposes darkness to light pointing us back to a Christianity centered in Christ From the Preface Having lost the ability to think biblically postmodern Christians are being transformed from cultural change agents and initiators into cultural conformists and imitators Pop culture beckons and

Essentials of Strategic Management 4e Think! Different Andreas Boskugel, 2015-03-25

Think Different is a different kind of self help book the author Andreas Boskugel is well known in Europe and appreciated for his clear and direct manner Boskugel has taken the law of attraction to its systematic and logical conclusion This book is completely free of otherwise typical references to moral or religious standards because the law of attraction like all natural laws isn t based on morality or religion Consequently the author has a very different take than do others on success for example he doesn t idolize hard work honesty and gratitude ad absurdum for these are only religious and cultural based opinions and actually contradict the law of attraction The author also forgoes otherwise typical teachings about what is right or wrong after all what is right is individually defined Feigned pity or morality sermons are also not included in this work This work is for those who love the integrity of the law of attraction and prefer clarity over political correctness And it s for those who really want to get somewhere in life and who therefore question existing opinions It s for people who are able to think on their own instead of going with the flow For many it was not until reading this book that they finally understood the law of attraction for the topics in this book are more logically organized than in other popular works and insights are offered that can dramatically improve the lives of readers Completely new insights about the existing laws of life can help readers become invincible masters of their own destiny
