Harnessing Globalization Roy C. Nelson, 2015-10-29 How can countries in the underdeveloped world position themselves to take best advantage of the positive economic benefits of globalization One avenue to success is the harnessing of foreign direct investment FDI in the nontraditional forms of the high technology and service sectors where an educated workforce is essential and the spillover effects to other sectors are potentially very beneficial In this book Roy Nelson compares efforts in three Latin American countries Brazil Chile and Costa Rica to attract nontraditional FDI and analyzes the reasons for their relative success or failure As a further comparison he uses the successes of FDI promotion in Ireland and Singapore to help refine the analysis His study shows that two factors in particular are critical First is the government s autonomy from special interest groups both domestic and foreign arising from the level of political security enjoyed by government leaders The second factor is the government s ability to learn about prospective investors and the inducements that are most important to them what he calls transnational learning capacity Nelson draws lessons from his analysis for how governments might develop more effective strategies for attracting nontraditional FDI
