advent of the knowledge economy and society has made it increasingly necessary for law reformers and policy makers to take
account of the effects of technology upon the law and upon legal and political processes This book explores aspects of
technology s relationship with law and government and in particular the effects changing technology has had on
constitutional structures and upon business Part I examines the legal normative influence of constitutional structures and
political theories It focuses on the interrelationship between laws and legal procedure with technology and the effect
technology can have on the legal environment Part II discusses the relationship between government and technology both at
the national and international level The author argues that technology must be contextualized within a constitution and
draws on historical and contemporary examples to illustrate how technology has both shaped civilizations and been the
product of its political and constitutional environment **LIFE** ,1969-08-22 LIFE Magazine is the treasured photographic
