Romans: Three Exegetical Interpretations and the History of

Reception Daniel Patte, 2018-07-26 In the first of a three volume work Daniel Patte presents three very different critical exegeses of Romans 1 arguing that all are equally legitimate and hermeneutically plausible By expanding upon and respecting the exegeses of many erudite scholars of the last two centuries Patte concludes that three families of vastly different critical interpretations are fully justified traditional philological and epistolary studies rhetorical and sociocultural studies and figurative studies of the coherence of Paul's teaching Arising from a long standing interdisciplinary investigation of many receptions of Romans in light of recent diversification of exegetical methodologies Patte concludes that the interpretation of a scriptural text necessarily involves making a choice among equally legitimate and plausible alternatives and second that this choice is always contextual and ethical When these points are denied by failing to respect the interpretations of others and absolutizing one's interpretation instead of being a scriptural blessing Romans becomes a deadly weapon against others heretics Jews Shoah and many others The result is a threefold commentary of Romans 1 that is unique in its scope and thorough going exegesis

Public Parts Jeff Jarvis, 2011-09-27 A visionary and optimistic thinker examines the tension between privacy and publicness that is transforming how we form communities create identities do business and live our lives Thanks to the internet we now live more and more in public More than 750 million people and half of all Americans use Facebook where we share a billion times a day The collective voice of Twitter echoes instantly 100 million times daily from Tahrir Square to the Mall of America on subjects that range from democratic reform to unfolding natural disasters to celebrity gossip New tools let us share our photos videos purchases knowledge friendships locations and lives Yet change brings fear and many people nostalgic for a more homogeneous mass culture and provoked by well meaning advocates for privacy despair that the internet and how we share there is making us dumber crasser distracted and vulnerable to threats of all kinds But not Jeff Jarvis In this shibboleth destroying book Public Parts argues persuasively and personally that the internet and our new sense of publicness are in fact doing the opposite Jarvis

travels back in time to show the amazing parallels of fear and resistance that met the advent of other innovations such as the camera and the printing press The internet he argues will change business society and life as profoundly as Gutenberg's invention shifting power from old institutions to us all Based on extensive interviews Public Parts introduces us to the men and women building a new industry based on sharing Some of them have become household names Facebook's Mark Zuckerberg Google's Eric Schmidt and Twitter's Evan Williams Others may soon be recognized as the industrialists philosophers and designers of our future Jarvis explores the promising ways in which the internet and publicness allow us to collaborate think ways how we manufacture and market buy and sell organize and govern teach and learn He also examines the necessity as well as the limits of privacy in an effort to understand and thus protect it This new and open era has already profoundly disrupted economies industries laws ethics childhood and many other facets of our daily lives But the change has just begun The shape of the future is not assured The amazing new tools of publicness can be used to good ends and bad The choices and the responsibilities lie with us Jarvis makes an urgent case that the future of the internet what one technologist calls the eighth continent requires as much protection as the physical space we share the air we breathe and the rights we afford one another It is a space of the public for the public and by the public It needs protection and respect from all of us As Secretary of State Hillary Clinton said in the wake of the uprisings in the Middle East If people around the world are going to come together every day online and have a safe and productive experience we need a shared vision to guide us Jeff Jarvis has that vision and will be that guide

Capitalism, Hegemony and Violence in the Age of Drones Norman

Pollack, 2017-12-12 This book offers a critical analysis of the rise of the US to global hegemony against a background of increased erosion of democracy and rule of law and a rising linear pattern of near absolute capitalist development The author argues that the significant shrinkage of the ideological spectrum globally as a result of worrisome levels of business and government interpenetration has created a dangerous prefascist configuration whereby unthinkable levels of violence have been normalized through the use of technologies such as drones increasingly condoned even by liberal groups and the so called political left Using the example of the Obama administration and its increased reliance on drone assassinations the volume makes a case for the dangers that lie in today's unique convergence of lack of transparency in government business government interpenetration informal social regimentation and militarization of capitalism
