Handbook of Research on Strategic Communication, Leadership, and Conflict Management in Modern Organizations Normore, Anthony, Javidi, Mitch, Long, Larry, 2019-03-08 As communication and leadership skills are both essential for personal and organizational success new approaches and management styles are continuously being sought. Emerging technologies, automation, opportunities, and a diverse workforce are just a few of the challenges business professionals must be prepared for in today's workplace environment. The Handbook of Research on Strategic Communication, Leadership, and Conflict Management in Modern Organizations provides emerging research exploring the theoretical and practical aspects of managing and solving conflicts and introduces updated approaches for refining communication and leadership skills. Featuring coverage on a broad range of topics such as emotional intelligence, organizational crises, and virtual team management, this book is ideally designed for professionals, leaders, managers, and human resource specialists seeking current research on developing the skills and consciousness needed to effectively communicate, negotiate, and collaborate in diverse organizations.

Child Development From Birth to 8 Years Amanda Thomas, Alyson Lewis, 2022-11-23 An understanding of Child Development is necessary for early childhood students as it underpins all early years practice and curricula. This book provides students with an in-depth understanding of the research theory and current practice supporting them through a complex area. Offering a fresh take, this book examines child development through a range of disciplines including psychology, education, sociology, anthropology, and philosophy. Chapters are structured to support readers in understanding complex theory with key features such as case studies which put theory into practice, reflective questions to encourage critical thinking, chapter summaries, further reading, and more. Amanda Thomas is Senior Lecturer in Education at University of South Wales. Alyson Lewis is Lecturer in Education Development at Cardiff University.

Research Anthology on Managing Crisis and Risk Communications Management Association, Information Resources, 2022-07-01 In times of crisis, it is crucial that information is disseminated quickly and accurately to the appropriate channels. In today's technological world, there is a plethora of misinformation that can negatively sway individuals and provide them with false reports. To ensure information is distributed appropriately, organizations must implement a plan to ensure their communication is effective. Further study on the best practices and challenges of managing crisis and risk communications is required to ensure organizations are prepared. The Research Anthology on Managing Crisis and Risk Communications discusses strategies and tactics to effectively manage communication in times of crisis and considers the difficulties associated with maintaining a clear line of information. The book also provides an overview of the potential future directions for this field to improve communications moving forward. Covering key topics such as misinformation, technology, leadership, and human health, this major reference work is ideal for managers, business owners, organization leaders, industry professionals, government officials, policymakers, researchers, academicians, and scholars.

practitioners instructors and students **Bhima's Mystical Quest** Petrus Suparyanto,2019 This research based on the Jasadipoeran S rat D waruci the Ki Nartosabdan D waruci play and the dhalangs interpretation of the D waruci play they performed Using three divisions of the horizontal tripartite of the D waruci play and of the vertical tripartite of the wayang kulit cosmology together with the Javanese concepts of lair batin and rasa the examination of Bh ma s quest reveals three stages of the Javanese spiritual growth which can be systematically summarized as the purification of the corporeal feelings the purification of the emotional feelings and the purification of the intuitive feelings which culminates in the union with God the so called manunggaling kawula Gustia *Beyond the Medical Gaze* Liza Morton,Senior Lecturer in Applied Psychology Liza Morton,2025-11-28 Thanks to advances in medical care over the last half century people are living longer While this is clearly welcome news it also means that more people are living with long term health conditions LTCs This growing number of people across all ages can face daily symptoms medical monitoring and invasive treatments Yet the psychological and emotional impact of living with a LTC is not routinely recognized or addressed in healthcare practice A cultural change in healthcare towards more holistic practice is long overdue to better support this growing population This book aims to provide an overview of psychologically informed approach to healthcare for healthcare professionals and anyone looking to deliver or receive more holistic healthcare **Digital Technologies and Learning in Physical Education** Ashley Casey,Victoria A. Goodyear,Kathleen M. Armour,2016-11-10 There is evidence of considerable growth in the availability and use of digital technologies in physical education Yet we have scant knowledge about how technologies are being used by teachers and whether or how these technologies are optimising student learning This book makes a novel contribution by focusing on the ways in which teachers and teacher educators are attempting to use digital technologies in PE The book has been created using the innovative pedagogical cases framework Each case centres on a narrative written by a PE practitioner explaining how and why technology is used in their practice to advance and accelerate learning Each practitioner narrative is then analysed by a team of experts from different disciplines The aim is to offer a multi dimensional understanding of the possibilities and challenges of supporting young people s learning with digital technologies Each case concludes with a practitioner reflection to illustrate the links between theory research and practice Digital Technologies and Learning in Physical Education encourages critical reflection on the use of technologies in PE It is an essential resource for students on physical education kinesiology or sport science courses practitioners working in PE or youth sport and researchers interested in digital technologies and education **The Mosaic of Atonement** Joshua M. McNall,2019-08-27 The Mosaic of Atonement offers a fresh and integrated approach to historic models of atonement While modern treatments of the doctrine have tended toward either a defensive hierarchy in which one model is singled out as most important or a disconnected plurality in which multiple images are affirmed but with no order of arrangement this book argues for a reintegration of four famous pieces of atonement doctrine through the governing image of Christ shaped mosaic Unlike a photograph in which tiny

pixels present a seamless blending of color and shape a mosaic allows each piece to retain its recognizable particularity while also integrating them in the service of a single larger image If one stands close one can identify individual squares of glass or tile that compose the greater picture And if one steps back there is the larger picture to be admired Yet in the great mosaics of age old Christian churches the goal is not for viewers to construct the image as in a puzzle but to appreciate it So too with this mosaic of atonement doctrine While no one model is set above or against the others the book notes particular ways in which the pieces the feet heart head and hands mutually support one another to form a more holistic vision of Christ s work This is my body Jesus said to his followers and by reintegrating these oft dismembered aspects of atonement we will note fresh ways in which it was given for us

Big Data and High Performance Computing L. Grandinetti,G.R.

Joubert,M. Kunze,2015-10-20 Big Data has been much in the news in recent years and the advantages conferred by the collection and analysis of large datasets in fields such as marketing medicine and finance have led to claims that almost any real world problem could be solved if sufficient data were available This is of course a very simplistic view and the usefulness

of collecting processing and storing large datasets must always be seen in terms of the communication processing and storage capabilities of the computing platforms available This book presents papers from the International Research Workshop Advanced High Performance Computing Systems held in Cetraro Italy in July 2014 The papers selected for publication here discuss fundamental aspects of the definition of Big Data as well as considerations from practice where complex datasets are collected processed and stored The concepts problems methodologies and solutions presented are of much more general applicability than may be suggested by the particular application areas considered As a result the book will be of interest to all those whose work involves the processing of very large data sets exascale computing and the emerging fields of data science
