Boushey, Joan Moser, 2023-10-10 *The Daily 5 Fostering Literacy in the Elementary Grades Second Edition* retains the core literacy components that made the first edition one of the most widely read books in education and enhances these practices based on years of further experience in classrooms and compelling new brain research. The Daily 5 provides a way for any teacher to structure literacy and now math time to increase student independence and allow for individualized attention in small groups and one on one. Teachers and schools implementing the Daily 5 will do the following: Spend less time on classroom management and more time teaching. Help students develop independence, stamina, and accountability. Provide students with abundant time for practicing reading, writing, and math. Increase the time teachers spend with students one on one and in small groups. Improve schoolwide achievement and success in literacy and math. The Daily 5 Second Edition gives teachers everything they need to launch and sustain the Daily 5, including materials and setup, model behaviors, detailed lesson plans, specific tips for implementing each component, and solutions to common challenges. By following this simple and proven structure, teachers can move from a harried classroom toward one that hums with productive and engaged learners. What's new in the second edition: Detailed launch plans for the first three weeks. Full color photos, figures, and charts. Increased flexibility regarding when and how to introduce each Daily 5 choice. New chapter on differentiating instruction by age and stamina. Ideas about how to integrate the Daily 5 with the CAFE assessment system. New chapter on the Math Daily 5 structure.

The Publishers Weekly, 1897 *Kids Across the Spectrums* Meryl Alper, 2023-08-15 An ethnographic study of diverse children on the autism spectrum and the role of media and technology in their everyday lives. In spite of widespread assumptions that young people on the autism spectrum have a natural attraction to technology, a premise that leads to significant speculation about how media helps or harms them, relatively little research actually exists about their everyday tech use. In *Kids Across the Spectrums*, Meryl Alper fills this gap with the first book-length ethnography of the digital lives of autistic young people. Based on research with more than sixty neurodivergent children from an array of racial, ethnic, and socioeconomic backgrounds, *Kids Across the Spectrums* delves into three overlapping areas of their media usage: cultural belonging, social relationships, and physical embodiment. Alper's work demonstrates that what autistic youth do with technology is not radically different from their non-autistic peers. However, significant social and health inequalities, including limited recreational programs, unsafe neighborhoods, and challenges obtaining appropriate therapeutic services, spill over into their media habits. With an emphasis on what autistic children bring to media, as opposed to what they supposedly lack socially, Alper argues that their relationships do not exist outside of how communication technologies affect sociality, nor beyond the boundaries of stigmatization and society writ large. Finally, she offers practical suggestions for the education, healthcare, and technology sectors to promote equity, inclusion, access, and justice for autistic kids at home, at school, and in their communities.
