traditional chemistry curriculum and modify it in three unique ways

- 1 Uses the Ross model of the atom a simplified version of the atom that works the way that young people think Students can use the Ross model to make insightful explanations and accurate predictions of chemical behaviour
- 2 Rearranges the traditional curriculum to avoid confusion and build student competency Competent students are confident students
- 3 Provides a model of science that directs the student's attention to the student's own understanding Each experiment tests the validity of the student's own thinking

As in all of the Ross Lattner IntuitivScience series diagrams are an important mode of expression Parents and teachers you get one half of the book We provide solid pedagogical supports recipes and methods of presentation Informed by over thirty years of international research into how students learn science the IntuitivChemistry series directly challenges the everyday misconceptions that students bring to your classroom
