November 11th 2003 saw a landmark event take place in London. As the first conference designed for quants by quants, the Quantitative Finance Review 2003 moved away from the anonymous bazaars that have become the norm and instead delivered valuable information to market practitioners with the greatest interest. The roster of speakers was phenomenal, ranging from founding fathers to bright young things discussing the latest developments with a specific emphasis on the burgeoning field of credit derivatives. You really had to be there. Until now at least. The Best of
