S. Ormond,1925 **Inventing the modern region** Talitha Ilacqua,2024-03-12 This book explores the process by which the French Basque country acquired a folkloric regional identity in the long nineteenth century It argues that despite its origins in pre modern customs this stereotypical identity was invented as part of France s process of nation building The abolition of privileges in 1789 prompted a new interest in local culture as the defining feature of provincial France shaping the transition from the pre modern province to the modern

region The relationship between the region and the nation however was difficult Regional culture favoured the integration of the French Basque provinces into the French nation state but also challenged the authority of the central state As a result Basque region building reveals the strengths and weaknesses of the unitary model of French nationhood in the nineteenth century as well as today

The Basque Witch-Hunt Jan Machielsen,2024-10-03 In June 1609 two judges left Bordeaux for a territory at the very edge of their jurisdiction a Basque speaking province on the Atlantic coast called the Pays de Labourd In four months they executed up to 80 women and men for the crime of witchcraft causing a wave of suspects to flee into Spain and sparking terror there Witnesses many of them children described lurid tales of cannibalism vampirism and demonic sex One of the judges Pierre de Lancre published a sensationalist account of this diabolical netherworld With other accounts seemingly destroyed this witch hunt France s largest has always been seen through de Lancre s eyes The narrative re told over the centuries is that of a witch hunt caused by a bigoted outsider Newly discovered evidence paints a very different still darker picture revealing a secret history underneath de Lancre s well known tale Far from an outside imposition witchcraft was a home grown problem Panic had been building up over a number of years and the region was fractured by factionalism and a struggle over scarce resources The Basque Witch Hunt reveals that de Lancre was no outsider he was a local partisan married into the Basque nobility Living at the Franco Spanish border the Basques were victims of geography Geo politics caused a local conflict which made the witch hunt inevitable The same forces eventually sent thousands of religious refugees from Spain to France where they in turn became new objects of popular fear and anger The Basque witch hunt is justly infamous This book shows that almost everything historians thought they knew about it is wrong
