Mayr,1911 **Modality, Aspect and Negation in Persian** Azita Hojatollah Taleghani,2008 This monograph presents a morpho syntactic investigation on modality aspect and negation by concentrating on Persian and is designed to contribute to theoretical linguistics and the study of Iranian languages The analysis is based on the Minimalist program This research challenges the idea that the syntactic structure maps on the semantic interpretation or vice versa The discussion presented in this monograph shows that the syntactic structure of Persian modals is uniform no matter if the modals are interpreted as having root or epistemic readings Although it is claimed that modals are raising constructions in different languages modals in Persian which does not have subject raising constructions show a different syntactic behavior Furthermore the structural analysis of the interaction of Persian modals and negation shows that because of the scope interaction of negation and modals the syntactic structure of modals with respect to negation mostly corresponds to the semantic interpretation of modals **Language of the English; or, The grammarian's text-book** William Tanner Imeson,1846 *English Grammar* Rufus William Bailey,1855 **A First Book of English Grammar** John Hugh Hawley,1869 **Translating Tenses in Arabic-English and English-Arabic Contexts** Hassan Abdel-Shafik Hassan Gadalla,2017-05-11 This volume is devoted to the translation of Arabic tenses into English and English tenses into Arabic Using a corpus of 1 605 examples it is remarkably exhaustive in its treatment of the categories and forms of both Standard Arabic and English tenses As such it represents a useful reference for translators and linguistics researchers With 260 example sentences and their translations the book will be very beneficial to teachers and students of Arabic English and English Arabic translation The book is divided into eight chapters The first presents the variety of Arabic that will be studied and explains why translation should be a text oriented process Chapter Two deals with the differences between tense and aspect in Arabic and English respectively Chapter Three proposes a model for translating Standard Arabic perfect verbs into English based on their contextual references The fourth chapter shows the contextual clues that can assist a translator in selecting the proper English equivalents of Arabic imperfect verbs Chapter Five deals with the translation of Arabic active
