Email Subject: [Add]

Dear [Boss Name],

I hope this message finds you well. I'm writing to discuss the possibility of reallocating some of my current tasks. Since beginning here, I have found that my load of work is getting larger and larger and I'm starting to feel like I'm spreading myself too thin.

I believe that a redistribution of some workload tasks could help maintain the quality of work and reduce pressure. I also don't want to fall behind or start making mistakes because I'm feeling stressed out.

Thanks for your understanding.

The Professional Business Email Etiquette Handbook & Guide Gerard Assey, 2020-09-05 There is little doubt that online technologies have transformed the way business operates in recent years And in this age of such advanced technology email is still the most preferred and often most efficient form of communication but yet regrettably many organizations treat this very important form of business communication casually and lightly With the average professional sending 40 emails per day and receiving 121 there is definitely a chance to move fast in email communication thus overlooking fundamental email etiquette rules This means that you have 40 opportunities to market yourself and your business in those individual emails you send every single day A recent study found that the average adult spends approximately 5 hours a day checking email 3 hours checking work email and 2 hours checking personal email This time is spent reading and composing hundreds of messages at a very fast pace obviously leaving a lot of room for error These errors can lead to missed opportunities or appearing totally unprofessional You would have experienced many replying to emails late or not at all or even sending replies that do not actually answer the questions being asked This can cause a potentially damaging effect on the image of the organization resulting finally in a loss of business There are basically 3 key entrances to any business 1 The front door face to face walk in customers or customers solicited by your sales personnel 2 The telephone and 3 The net And the chances are that if either of these are NOT handled properly you have lost your customer forever Think of this for a moment If most of the business coming in is through the net and if your organization is able to deal professionally with email then this will most certainly result in your organization having that all important competitive edge On the other hand if not handled the right way then in the very first instance chances are that you have lost a customer and it could even be forever And remember word of mouth travels fast today thanks to the social media platforms So this is where the importance of educating your employees can help thus protecting your company from awkward liability issues as well By having employees use appropriate business like language and etiquette in all electronic communications employers can limit their liability risks and improve the overall effectiveness of the organization thus resulting in greater returns with a professional image and branding Therefore when it comes to any material or correspondence being sent out from your

organization it is of vital importance to convey the right message in the right way to ensure that this creates the right impression that you are a credible professional enterprise and one that will be easy and a pleasure to do business with And remember you only have that one chance to make that first impression which will be invaluable to building trust and confidence So like any tool or skill it is important therefore that organizations take the time to provide the right support to ensure and enable staff to effectively integrate the right online tools and skills into their daily work routine and gain maximum benefit It is also vital that organizations develop internal policies to guide employees on the correct use of such online communications to cover issues such as personal use privacy monitoring downloading of content access by third parties and illegal use of the internet to avoid any embarrassment or awkward liability issues that can otherwise arise This little book *The Professional Business Email Etiquette Handbook Guide* comes to you at such a crucial time as this when the world is going through a pandemic and one needs to be all the more sensitive especially with the right etiquette So I believe that this will immensely help in equipping you and your team with the essential skills and techniques necessary for managing and structuring emails and writing professionally So here s to how to Write Right the Email Way Writing Your Thesis Paul Oliver,2013-08-12 Written in an authoritative and accessible style this is a must read for anyone planning researching and writing a doctoral thesis or dissertation I will certainly be recommending this book to my research students Professor Goeffrey Elliott University of Worcester Paul s book was a lifeline during my doctorate it is now the first book that I recommend for my research students His book is easily accessible full of practical advice and provides useful study strategies to carefully guide you this third edition is a valuable asset wherever you are on your doctoral journey Dr Scott Buckler University of Worcester Based on his extensive experience as a successful thesis supervisor Paul Oliver shows you how to turn your notes and data into a finished Masters or PhD thesis or dissertation Fully up to date with current HEFCE other EU requirements the book sets out a template for you to follow including planning and preparation theoretical perspectives publishing preliminary findings and preparing for the viva This edition contains Examples of common mistakes and how you can avoid them Discussions of artefacts such as creative work Research focused content A section on the relationship with your supervisor Information on online and digital work so you are up to date with the latest developments in thesis writing Student Success is a series of essential guides for students of all levels From how to think critically and write great essays to boosting your employability and managing your wellbeing the Student Success series helps you study smarter and get the best from your time at university **I Hope This Email Finds You Never** Ken Kupchik,Emily Ann Hill,2022-10-11 Ahhh the modern workplace a cauldron of stress and anxiety From the moment we accept a new role we re thrown into a world of competing personalities shifting protocols and an endless stream of emails Slack messages and Zoom calls all of which serve to distract us from the things we truly want to be doing like eating Thai food and sleeping until noon I Hope This Email Finds You Never puts aside the motivational screeds productivity hacks and pop science and focuses instead on those things in the
