Nearly 20 years ago, Raymond received severe head trauma from a car accident which left IM in a coma for nearly a month. Eventually, Raymond recovered but he had difficulty, especially with his memory. Harriet becomes Raymond primary caregiver. Harrier's health began to decline over the years eventually suffering a stroke and a broken hip requiring her placement in skilled nursing home. The family found themselves trying to determine what arrangements their mother had made for her care as well as Raymond.

They found that she neglected to address any of their affairs; no powers of attorney, no living wills, no wills and very small nest egg. It was to long after Harriet placement in the home that Raymond is placed the dementia ward of the same facility as Harriet. Because of the lack of planning Raymond son had to be declared is father's legal guardian by the Courts. Although the nursing home claimed the fourth floor was a dementia unit, it was little more than a limited access skilled nursing unit. Patients were permitted to wander the ward with little or no supervision.

The family was not happy about the situation but with limited financial resources there was no choice. On February 28th, 2011, Raymond was wandering the halls of the unit, one can only surmise what occurred next. According to a subsequent state investigation, the wing was left unsupervised. An amputee patient fell out of his wheelchair. A life member of the volunteer fire department Raymond heard the wonder alarm sounding and intuitively he attempted open the large nutritional door to the patient's room.

The patient was lying on the floor directly behind the door. The door would not open, so Raymond continued to push on the doors trying to be of assistance. Eventually, the staff heard the alarm and responded to find Raymond in the hall and the patient on the floor with head trauma. After the incident, the family received a call from the nursing home stating that Raymond need to go to the hospital psychiatric unit. The family was not alarmed as this had happened a few times before.

The home failed to elaborate. The morning news told the story of an incident of a dementia patient assaulting another. The following evening the news was of a dementia patient being charged with aggravated assault with the District Attorney office considering homicide charges. The family had to obtain a criminal attorney for Raymond, who had already been declared legal incompetent by the courts. It seems the nursing home had not mentioned that to the charging officer or the District Attorney's office.

They also had to obtain a civil attorney because the victim's family had indicated they were going to sue all the parties involved. Raymond could be of little help in his defense and became confused easily reverting to his earliest memories. Investigations were being conducte

A Road Map for Improvement of Student Learning and Support Services Through Assessment James Oliver Nichols,2005 Conversations of the Mind Rebecca William Mlynarczyk,2013-10-18 Asking students to write journals that reflect on their learning has become a widespread pedagogical practice in recent years However the scholarly literature does not address certain key questions about how journal writing aids learning Is there something inherent in journal writing that encourages students to write reflectively What psycholinguistic or cognitive factors help to explain the power of journal writing Why do some students use journals to write prolifically and creatively while others limit their responses to summarizing the assigned course reading Why do teachers find some journal entries so much more engaging than others How do teachers ways of responding to journals affect their students development as writers and thinkers This book addresses such questions through a careful analysis of the journal writing of the students in the author s ESL classes at a large urban college It contains detailed case studies of five culturally and linguistically diverse students with widely differing responses to journal writing To teachers of composition for both first and second language students and to teachers of graduate courses in education and qualitative research this book offers a contextualized description of journal writings as a complex social activity By emphasizing the need for educators to reexamine their pedagogy and to learn from their students *Conversations of the Mind* is an indispensable contribution to the emerging literature of teacher research and reflective practice *Understanding, Evaluating, and Conducting Second Language Writing Research* Charlene Polio,Debra A. Early Holistic Scoring of Writing Richard Haswell, Norbert Elliot, 2019-11-01 What is the most fair and efficient way to assess the writing performance of students? Although the question gained importance during the US educational accountability movement of the 1980s and 1990s, the issue had preoccupied international language experts and evaluators long before. One answer to the question, the assessment method known as holistic scoring, is central to understanding writing in academic settings. Early Holistic Scoring of Writing addresses the history of holistic essay assessment in the United Kingdom and the United States from the mid 1930s to the mid 1980s and newly conceptualizes holistic scoring by philosophically and reflectively reinterpreting the genre's origin, development, and significance. The book chronicles holistic scoring from its initial origin in the United Kingdom to the beginning of its heyday in the United States. Chapters cover little-known history from the holistic scoring of school certificate examination essays written by Blitz evacuee children in Devon during WWII to teacher adaptations of holistic scoring in California schools during the 1970s. Chapters detail the complications, challenges, and successes of holistic scoring from British high-stakes admissions examinations to foundational pedagogical research by Bay Area Writing Project scholars. The book concludes with lessons learned, providing a guide for continued efforts to assess student writing through evidence models. Exploring the possibility of actionable history, Early Holistic Scoring of Writing reconceptualizes writing assessment. Here is a new history that retells the origins of our present body of knowledge in writing studies.
