Chapter 9: Life, Health, and Disability Insurance

LIFE INSURANCE: AN INTRODUCTION:

Define life insurance and describe its purpose and principle.

What is Life Insurance?

- A person joins a risk-sharing group (*an insurance company*) by purchasing a contract (*a policy*).
- Under the policy, the insurance company promises to pay a sum of money at the time of the policyholder's death to the person or persons selected by him or her (the beneficiaries).
- In the case of an *endowment policy*, the money is paid to the policyholder (the insured) if he or she is alive on the future date (the maturity date) named in the policy.
- The insurance company makes this promise in return for the insured's agreement to pay it a sum of money (*the premium*) periodically.

The Purpose of Life Insurance:

Most people buy life insurance to protect someone who depends on them from financial losses caused by their death.

Life insurance proceeds may be used to:

- Pay off a home mortgage or other debts at the time of death.
- Provide lump-sum payments through an endowment to children when they reach a specified age.
- Provide an education or income for children.
- Make charitable bequests after death.
- Provide a retirement income.
- Accumulate savings.
- Establish a regular income for survivors.
- Set up an estate plan.
- Make estate and death tax payments.

DETERMINING YOUR LIFE INSURANCE NEEDS:

Determine your life insurance needs.

Do You Need Life Insurance?

Your stage in the life cycle and the type of household you live in will influence this decision. Single persons living alone or with their parents usually have little or no need for life insurance. Parents with small children usually have the greatest need for life insurance.

Determining Your Life Insurance Objectives:

1. How much money do you want to leave to your dependants should you die today?

Downhill from Here Katherine S. Newman,2025-06-25 A sharp examination of the looming financial catastrophe of retirement in America As millions of Baby Boomers reach their golden years the state of retirement in America is little short of a disaster Nearly half the households with people aged 55 and older have no retirement savings at all The real estate crash wiped out much of the home equity that millions were counting on to support their retirement And the typical Social Security check covers less than 40% of pre retirement wages a number projected to drop to under 28% within two decades Old age poverty a problem we thought was solved by the New Deal is poised for a resurgence With dramatic statistics and vivid portraits acclaimed sociologist Katherine S Newman shows that the American retirement crisis touches us all cutting across class lines and generational divides White collar managers have seen retirement benefits vanish Teamsters have had their pensions cut in half bankrupt cities like Detroit have walked away from their commitments to municipal workers And for Generation X the prospects are even worse a fifth of them expect to never be able to retire Only the vaunted one percent can face retirement without fear Other countries are confronting similar demographic challenges yet they have not abandoned their social contract with seniors Downhill From Here makes it clear that America too can and must do better
