Women, Work, and the Web Carol Smallwood, 2014-12-05 In a tight economy, women entrepreneurs are making progress in a field that has been traditionally along with science, math, and engineering, one in which women haven't been well represented. *Women, Work, and the Web: How the Web Creates Entrepreneurial Opportunities* is by contributors from the United States and Canada sharing how the Internet has opened doors, leveled the playing field, and provided new opportunities. How the Internet has helped women with young children, caretakers of disabled family members, women with disabilities, how it has helped female veterans gain employment, put women into work boots, publish in a male-dominated world, become editors, online instructors, and hold the First International Day of the Girl. The twenty-eight chapters are divided into five parts: Fostering Change, Running a Business, Educational Applications, Personal Aspects, Publishing and Writing. It is exciting to see how the creative contributors of different ages, backgrounds, and goals are using the Web to further their careers and the status of other women as they progress online.

This hands-on creativity-expanding guide will help you infuse your nonfiction with honesty, personality, and energy. You'll discover: An exploration of the basics of essay writing; Ways to step back and scrutinize your experiences in order to separate out what may be fresh, powerful, surprising, or fascinating to a reader; How to move past private journaling and write for an audience; How to write eight different types of essays, including memoir, travel, humor, and nature essays, among others; Instruction for revision and strategies for getting published; Brimming with helpful examples, exercises, and sample essays, this indispensable guide will help your personal essays transcend the merely private to become powerfully universal.
