ordinary police have contributed to the toll Jude McCulloch's involvement as a lawyer in cases of police shootings led her to detailed investigation of changes to policing in Australia Blue Army arises from her research into the paramilitarisation of the police It exposes the risks of allowing Australia's police forces to move away from the key principle of keeping the peace with the use of minimum force Blue Army is a very disturbing book and one of great importance **SHOTOKAN KARATE:**

PRACTICAL COMBAT KARATE FOR THE STREET Joseph Truncale, 2015-07-05 Shotokan Karate is one of the most effective forms of self defense but it is this area that is most ignored in traditional Shotokan dojos This modest manual is different from most Shotokan Karate texts because it focuses on the self defense application of karate Traditional Shotokan karate concentrates on three primary areas They are basics or Kihon Kata or forms and sparring or kumite The sparring may consist of five times sparring three times sparring one time sparring semi free sparring and free sparring Self defense training is seldom practiced and this manual hopes to fill that gap for students of Shotokan and other traditional styles of Karate This manual covers the basic principles of self defense use of force factors in self defense simple and effective self defense techniques to counter arm grabs body grabs choke attacks punching and kicking attack counters club attacks knife attacks gun attacks ground attacks and multiple attacker self defense techniques **SNI Documents 1979**, 1980 For Security Personnel, DEFENSIVE BATON, 2020 Mürsel Sevindik, 2020-04-17 This book covers Defensive Baton issues for law enforcement officer The goal is for the officers to understand and demonstrate the tactical fundamentals of the baton in an operational setting and its proper use as an intermediate impact weapon One of the major dilemmas facing law enforcement today is the continually increasing number of assaults on police officers as they perform their duties How can the officer respond to this critical situation without resorting to deadly force Modern law enforcement tool has been developed to increase officers ability to protect themselves particularly in those cases not justifying the use of deadly force That tool is the baton The ability to use force lawfully against the public is the primary factor which distinguishes the police from the rest of society The police service is unique in society as they are the only civil organization that has been given the authority to use force As a result of this responsibility the use of force by the police comes under close scrutiny by both the public and the courts The baton can be utilized when empty hand techniques are not effective A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm The main purpose of the baton is to stun or temporarily disable rather than cause permanent injury The baton is not designed as a lethal weapon and is not an instrument of punishment It is to be used in a skillful manner to counter or stop an aggressive subject The techniques shown in this booklet has been universally accepted and are defensible in court They are designed to work efficiently for all officers male female small large fit and the less fit Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement Pro-Systems Combat Machete Volume One Fernan Vargas, Joseph Truncale, 2017-10-29 This is the first volume in a series of manuals on the Pro Systems combat
