

The Constitution: Something's Missing

The Constitution set up the rules for our government. The first ten constitutional amendments, called the Bill of Rights, listed the rights that citizens should expect. But when these documents were written, over one third of the population of the United States was not considered citizens. These were the slaves and free blacks living in the United States. They were born in the U.S., worked in the U.S., and died in the U.S. — but were not protected by the founding documents or by state laws. It took a war between the states to bring changes to the Constitution that would end slavery and set the path for greater equality.

States Taking Sides

We don't hear much about new states being added to the United States anymore. But in the early 1800s, several new states were added to the union. One of the hot topics of the day was whether these new states would allow slavery (like the Southern states) or ban it (like most of the Northern states). Over time these two regions had developed in different ways, which led to conflict. Check out the map to see which states allowed slavery and which didn't.

Civil War!

Soldier with Union Flag

The debate over slavery and rights was a main factor leading to the bloodiest war in our country's history. The slave states in the South decided they would be better off as a separate nation, so they seceded from the United States. **Secession** means separation or breaking away. But President Abraham Lincoln did not want the nation to be divided. War began between the southern states, which called themselves the Confederate States of America, and the northern states, which were still known as the United States of America. President Lincoln led the United States during the war. The Confederate States set up its own government and military. This "War Between the States," now called the Civil War, deeply and bitterly divided Americans on both sides.

Emancipation

In the middle of the war (1863), President Lincoln issued the **Emancipation Proclamation**, declaring that all the slaves in the South were free. (Emancipation means freedom). Although it was a huge and important step, it didn't have much immediate effect. It did not help slaves in the South, because the Confederate States of America had its own government and did not feel bound by proclamations by the United States president. It also did not help slaves in states that had not seceded.

Even so, the Emancipation Proclamation was a big deal. Although it failed to free any actual slaves, it did send a strong message: When the war was over, slavery in the U.S. would end. The U.S. government took this as a sign to move forward with additional laws that changed citizens' rights in America.
