*Gargantua* Julian Stallabrass, 1996-06-17 Rabelais's tale the giant prince Gargantua is a vast and inescapable cluster of qualities and activities his violence greed and incontinence are incomparable In the old giant's size ubiquity gluttony vast knowledge and warlike nature we can recognize qualities of our contemporary culture In this brilliant polemic on our visual mass culture Stallabrass argues that culture's status as a commodity is the most important thing about it affecting its form its relation to the viewer and its ideology The great diversity of choice masks the extent to which this choice is managed by an ever shrinking number of powerful owners Stallabrass shows how the consistent and unifying capitalist ideology of mass culture leads to an increasingly homogeneous identity among its consumers Even in marginal and radical cultural activities like graffiti writing can be found the tyranny of the brand name and the reduction of the individual to a cipher Starting with an analysis of subjects which concern specific groups amateur photography computer games and cyberspace Stallabrass works out to wider aspects of the culture which affect everybody including cars shopping and television Gargantua raises profound questions about the nature and direction of mass culture It also raises a challenge to the postmodern theorists adherence to subjectivity indeterminacy and political indifference If manufactured subjectivities are always shot through with the objective then their plurality may not be merely a colourful but meaningless postmodern smorgasbord but rather the accurate reflection of our current cultural situation and a map showing paths beyond it

**Digital Mediascapes of Transnational Korean Youth Culture**  
Kyong Yoon, 2019-10-28. Drawing on vivid ethnographic field studies of youth on the transnational move across Seoul, Toronto, and Vancouver, this book examines transnational flows of Korean youth and their digital media practices. This book explores how digital media are integrated into various forms of transnational life and imagination, focusing on young Koreans and their digital media practices. By combining theoretical discussion and in-depth empirical analysis, the book provides engaging narratives of transnational media fans, sojourners, and migrants. Each chapter illustrates a form of mediascape in which transnational Korean youth culture and digital media are uniquely articulated. This perceptive research offers new insights into the transnationalization of youth cultural practices, from K-pop fandom to smartphone-driven storytelling. A transnational and ethnographic focus makes this book the first of its kind with an interdisciplinary approach that goes beyond the scope of existing digital media studies, youth culture studies, and Asian studies. It will be essential reading for scholars and students in media studies, migration studies, popular culture studies, and Asian studies.
