Bottjer, 2010-11-03 Taphonomic bias is a pervasive feature of the fossil record A pressing concern however is the extent to which taphonomic processes have varied through the ages It is one thing to work with a biased data set and quite another to work with a bias that has changed with time This book includes work from both new and established researchers who are using laboratory field and data base techniques to characterise and quantify the temporal and spatial variation in taphonomic bias It may not provide all the answers but it will at least shed light on the right questions

Prelims 2020 GS Paper-1 Test 1-40 R P Meena, UPSC IAS Prelims 2020 Solved Test Paper 1 40 The UPSC IAS Preliminary Test is by far the most challenging stage of the Civil Services Examination with nearly 5 lakh candidates taking the test each year. After GS Paper 2 CSAT was made qualifying in 2015, the GS Paper 1 has assumed greater significance in deciding the success of a candidate in the Preliminary Test which seeks to eliminate non-serious candidates from entering the Main Examination. With mere 100 questions deciding your entry into the Main Examination, the room for error in this stage is minuscule. In addition to changes in the pattern of Preliminary Test GS Paper 1 is subjected to frequent changes in terms of the nature of the questions that appear in it. While the GS 1 paper from 2010-2014 focused on the conceptual understanding in conventional areas, in 2015 and 2016 the emphasis was on factual current events. On the other hand, the 2017, 2018, and 2019 papers tested the creative intelligence and problem-solving skills of the candidates. The GS Paper 1 from 2017-19 was an interesting mix of questions ranging from epistemological understanding of important political underpinnings like liberty, equality, etc. to most contemporary issues like Google tax, AI, Block chain technology, UPI, etc. Keeping in view the web of complexities the Exam can throw at you, we are striving to keep abreast with the dynamics of the Preliminary Test.
