No Greater Valor Jerome Corsi,2014-11-18 Jerome Corsi s newest opus *No Greater Valor* examines the Siege of Bastogne one of the most heroic victories of WWII with a focus on the surprising faith of the Americans who fought there In December of 1944 an outmanned outgunned and surrounded US force fought Hitler s overwhelming Panzer divisions to a miraculous standstill at Bastogne The underdogs had saved the war for the Allies It was nothing short of miraculous Corsi s analysis is based on a record of oral histories along with original field maps used by field commanders battle orders and other documentation made at the time of the military command With a perspective gleaned from newspapers periodicals and newsreels of the day Corsi paints a riveting portrait of one of the most important battles in world history

Forgotten Battles Charles T. O'Reilly,2001-01-01 Italy s War of Liberation takes issue with the apparently prevalent attitude among Allied commanders during World War II that the Italian military was ineffective O Reilly recounts the little known story of the significant contribution made by the Italian military during the Italian Campaign including the contribution of relatively unacknowledged Italian Partisan formations that fought in Italy France Yugoslavia and Greece Despite the fact that Italians fought on the front lines with the British and American soldiers and despite the service of the Italian Navy and Air Force the Allies refused repeated Italian pleas for more involvement in combat This book not only attempts to correct the record of military history by illustrating the ways in which the Italians were underutilized by the Allies but it also serves to paint a fair portrait of the Italian military s substantial efforts to defeat Hitler and eradicate Fascism

Heroines of Vichy France Paul R. Bartrop,Samantha J. Lakin,2019-05-10 This book tells the largely unknown story behind the rescue activities of several remarkable young Jewish women in Vichy France during World War II and their role in the resistance against Nazi and Vichy France deportation policies Few studies of Vichy France and the Holocaust have looked at the rescue of Jews by those prepared to risk everything to escort them to safety in the border regions and even fewer have considered Jewish rescue of Jews specifically

of Jewish children by women This work will be arguably the first book in which the experiences and efforts of a number of female rescuers all of whom knew or knew of each other have been brought together in a single volume with the object of honoring their memory and showing how the value of human life was sustained through the Holocaust Focusing on a number of young Jewish women who defied the Nazis this narrative highlights their courage and sacrifice in their efforts to rescue Jews in France during World War II Additionally it shows how these French women responded to Nazi and Vichy France policies of deportation through resistance activities This is a story that will captivate anyone with an interest in the innate goodness of human beings that can shine even when confronted with the darkest expressions of depravity that occurred during the Holocaust **Farnsworth Employees Victory Record** ,1942 Congressional Record United States.

Blackburn,2016-04-08 Across the country museums and historic sites welcome visitors into a world long gone but fundamental to America today Military history in particular is etched into our country s culture and the public s imagination The trouble though for museums and historical sites lies in continuing to make it both accessible and relevant to today s audiences Through Interpreting American Military History at Museums and Historic Sites Marc K Blackburn tackles the difficult task of helping those institutions charged with the care of sites collections and stories that relate to our past relatable while still maintaining the dignity and reverence of their rich history Looking at the various components of American military history such as battles and famous figures Blackburn provides alternatives to the traditional museum experience The 21st century is a culmination of the past and it is more important than ever to remember and learn from the triumphs and failures and this guide provides and explains those strategies for making our stories and collections relevant to modern audiences This books acts as a primer for those unfamiliar with academic trends of the last forty years Historiography of American military history like that of other sub fields shifts as new information surfaces or as perspectives change Blackburn modernizes this area through new interpretative methods as well as through case studies of museums and

historic sites that have created programs interpretive media outreach strategies and mission goals updated to meet the needs of today's patrons. Armed with these strategies, historic institutions will have the foundation to provide compelling relevant and engaging experiences for the 21st century audience. **Europe in Exile** Martin Conway, José Gotovitch, 2001.
