How do survivors of sexual and domestic violence relate to religion and to a higher power? What are the social and religious contexts that sustain and encourage eating disorders in women? How do these issues intersect? The relationship between Christian religious discourse, incest, and eating disorders reveals an important and so far unexamined psychosocial phenomenon. Drawing from interviews with incest survivors whose sexual and religious backgrounds are intimately connected with their problematic relationship with food, Jennifer Manlowe here illuminates the connections between female body weight and appetite preoccupations. Manlowe offers social and psychological insights into the most common forms of female suffering: incest and body hatred. The volume is intended as a resource for professionals, advocates, friends of survivors, and most importantly, the survivor of incest herself, as she attempts to understand the links of meaning in her mind between her incest experience and her subsequent eating disorder. *Primary Seduction* Elouise East, 2023-06-29
