Critical Essays on "Causation and Responsibility" Benedikt Kahmen, Markus Stepanians, 2013-10-14 Due to its scope and depth Moore's Causation and Responsibility is probably the most important publication in the philosophy of law since the publication of Hart's and Honore's Causation in the Law in 1959 This volume offers for the first time a detailed exchange between legal and philosophical scholars over Moore's most recent work In particular it pioneers the dialogue between English speaking and German philosophy of law on a broad range of pressing foundational questions concerning causation in the law It thereby fulfills the need for a comprehensive international and critical discussion of Moore's influential arguments The 15 contributors to the proposed volume span the whole interdisciplinary field from law and morals to metaphysics and the authors include distinguished criminal and tort lawyers as well as prominent theoretical and practical philosophers from four nations In addition young researchers take brand new approaches in the field The collection is essential reading for anyone interested in legal and moral theory

English Journal, 2000

A New Education for New Minds Marquis R. Nave, 2014-08-15 The education system provides a great way to peer into the potential of the human mind but it comes up short in unleashing it Marquis R Nave who has taught English at the college level for 10 years has discovered that students' minds are the center of education and that their ideas about their mental capabilities are crucial to developing a new education Students who don't believe in the creative power of their minds end up being trained to do work Educators and educational institutions must help them activate their mental potential so they can create solutions for themselves and the world In a series of essays Nave examines the shortcomings of the education system challenging the way we perceive and think about knowledge education and our own awareness A second section helps students write effective college level essays Whether you're a student an educator or a supporter of educational reform *A New Education for New Minds* will spark ideas that have long lingered in your own mind

A Story of Their Own Rebecca Jean Peacock, 2003

The Oxford Handbook of Victorian Poetry Matthew Bevis, 2013-10-31 I am inclined to think that we want new forms as well as thoughts confessed Elizabeth Barrett to Robert Browning in 1845 The Oxford Handbook of Victorian Poetry provides a closely read appreciation of the vibrancy and variety

of Victorian poetic forms and attends to poems as both shaped and shaping forces The volume is divided into four main sections The first section on Form looks at a few central innovations and engagements Rhythm Beat Address Rhyme Diction Syntax and Story The second section Literary Landscapes examines the traditions and writers from classical times to the present day that influence and take their bearings from Victorian poets The third section provides Readings of twenty three poets by concentrating on particular poems or collections of poems offering focused nuanced engagements with the pleasures and challenges offered by particular styles of thinking and writing The final section The Place of Poetry conceives and explores place in a range of ways in order to situate Victorian poetry within broader contexts and discussions the places in which poems were encountered the poetic representation and embodiment of various sites and spaces the location of the Victorian alongside other territories and nationalities and debates about the place and displacement of poetry in Victorian society This Handbook is designed to be not only an essential resource for those interested in Victorian poetry and poetics but also a landmark publication provocative seminal volume that will offer a lasting contribution to future studies in the area

Compass Roupini Papadomichelaki, Lash Keith Vance, 2006 **Essays in Toxicology** Wayland J. Hayes, 2013-10-22
Essays in Toxicology Volume 5 covers essays in toxicology The book presents essays on nitrosamines a laboratory model ecosystem to evaluate compounds producing biological magnification and the metabolism of DDT in human The text also includes essays on the toxins of *Clostridium botulinum* the use of breath analysis in clinical toxicology and the biochemical toxicology of methanol Toxicologists biochemists microbiologists pharmacologists and people involved in the research of toxicology will find the book invaluable Rethinking Rubrics in Writing Assessment Maja Wilson, 2006 The conventional wisdom in English education is that rubrics are the best and easiest tools for assessment But sometimes it's better to be unconventional In *Rethinking Rubrics in Writing Assessment* Maja Wilson offers a new perspective on rubrics and argues for a better more responsive way to think about assessing writers progress Though you may sense a disconnect between student centered teaching and rubric based assessment you may still use rubrics for convenience or for want of better alternatives *Rethinking Rubrics in Writing Assessment* gives you the impetus to make a change demonstrating how rubrics can hurt kids and replace professional decision making with an inauthentic pigeonholing that stamps standardization onto a notably nonstandard process With an emphasis on thoughtful planning and teaching Wilson shows you how to reconsider writing assessment so that it aligns more closely with high quality instruction and avoids the potentially damaging effects of rubrics Stop listening to the conventional wisdom and turn instead to a compelling new voice to find out why rubrics are often replaceable Open *Rethinking Rubrics in Writing Assessment* and let Maja Wilson start you down the path to more sensitive authentic style of writing assessment *Essays on Capital Structure* Eugene Nivorozhkin, 2001 Locke's Essay and the Rhetoric of Science Peter Walmsley, 2003 This book shows how in his enormously influential Essay concerning Human Understanding 1689 John Locke embraces the new rhetoric of seventeenth century natural philosophy adopting the

strategies of his scientific contemporaries to create a highly original natural history of the human mind With the help of Locke s notebooks letters and journals Peter Walmsley reconstructs Locke s scientific career including his early work with the chemist Robert Boyle and the physician Thomas Sydenham He also shows how the Essay embodies in its form and language many of the preoccupations of the science of its day from the emerging discourses of experimentation and empirical taxonomy to developments in embryology and the history of trades The result is a new reading of Locke one that shows both his brilliance as a writer and his originality in turning to science to effect a radical reinvention of the study of the mind
