Langer, 2015-04-25 Backed by solid research *Writing Instruction That Works* answers the following question What is writing instruction today and what can it be tomorrow This up to date comprehensive book identifies areas of concern for the ways that writing is being taught in todays secondary schools The authors offer far reaching direction for improving writing instruction that assist both student literacy and subject learning They provide many examples of successful

writing practices in each of the four core academic subjects English mathematics science and social studies history along with guidance for meeting the Common Core standards The text also includes sections on Technology and the Teaching of Writing and English Language Learners Measuring History S. G. Grant,2009-03-01 Measuring History complements the cases presented in Wise Social Studies Practices Yeager Davis 2005 Yeager and Davis highlight the rich and ambitious teaching that can occur in the broad context of state level testing In this book the chapter authors and I bring the particular state history tests more to the fore and examine how teachers are responding to them At the heart of Measuring History are cases of classroom teachers in seven states Florida Kentucky Michigan New York Texas Mississippi and Virginia where new social studies standards and new and generally high stakes state level history tests are prominent In these chapters the authors describe and analyze the state s testing efforts and how those efforts are being interpreted in the context of classroom practice The results both support and challenge prevailing views on the efficacy of testing as a vehicle for educational reform Catherine Horn University of Houston and I lay the groundwork for the case studies through a set of introductory chapters that examine the current environment the research literature and the technical qualities of history tests TAKS Study Guide Texas Education Agency,2003 **Journal of Developmental Education** ,2017 **Stuck in the Shallow End, updated edition** Jane Margolis,2017-02-24 Why so few African American and Latino a students study computer science updated edition of a book that reveals the dynamics of inequality in American schools The number of African Americans and Latino as receiving undergraduate and advanced degrees in computer science is disproportionately low And relatively few African American and Latino a high school students receive the kind of institutional encouragement educational opportunities and preparation needed for them to choose computer science as a field of study and profession In Stuck in the Shallow End Jane Margolis and coauthors look at the daily experiences of students and teachers in three Los Angeles public high schools an overcrowded urban high school a math and science magnet school and a well funded school in an affluent neighborhood They find an insidious virtual segregation that maintains inequality The race gap in computer science Margolis discovers is one example of the way students of color are denied a wide range of occupational and educational futures Stuck in the Shallow End is a story of how inequality is reproduced in America and how students and teachers given the necessary tools can change the system Since the 2008 publication of Stuck in the Shallow End the book has found an eager audience among teachers school administrators and academics This updated edition offers a new preface detailing the progress in making computer science accessible to all a new postscript and discussion questions coauthored by Jane Margolis and Joanna Goode Stuck in the Shallow End Jane Margolis,2008-08-15 The number of African Americans and Latino as receiving undergraduate and advanced degrees in computer science is disproportionately low according to recent surveys And relatively few African American and Latino a high school students receive the kind of institutional encouragement educational opportunities and preparation needed for them to choose computer science as a field of study

and profession In *Stuck in the Shallow End* Jane Margolis looks at the daily experiences of students and teachers in three Los Angeles public high schools an overcrowded urban high school a math and science magnet school and a well funded school in an affluent neighborhood She finds an insidious virtual segregation that maintains inequality Two of the three schools studied offer only low level how to keyboarding cutting and pasting introductory computing classes The third and wealthiest school offers advanced courses but very few students of color enroll in them The race gap in computer science Margolis finds is one example of the way students of color are denied a wide range of occupational and educational futures Margolis traces the interplay of school structures such factors as course offerings and student to counselor ratios and belief systems including teachers assumptions about their students and students assumptions about themselves *Stuck in the Shallow End* is a story of how inequality is reproduced in America and how students and teachers given the necessary tools can change the system

Saving the School Michael Brick,2013-07-30 In the race to save a failing public high school one principal finds that making the numbers is only the beginning Being principal of Reagan High in Austin Texas was no dream assignment Test scores were low dropout rates were high and poverty was endemic But when Anabel Garza took the job she started something no one expected Racing against a deadline just to make the numbers she set out to rebuild the kind of school that once unified neighborhoods across America By her side a basketball coach showed kids they could be winners a young science teacher showed them they could learn and a community rallied around a treasured institution In this powerful rejoinder to the prevailing winds of education policy Michael Brick takes readers inside the high pressure world of a school on the brink Paying overdue tribute to a vital American tradition the great American high school *Saving the School* exposes the flaws of a broken system but also tells an inspiring story of faith hope and perseverance *Dismantling Contemporary Deficit Thinking* Richard R. Valencia,2010-09-13 Deficit thinking is a pseudoscience founded on racial and class bias It blames the victim for school failure instead of examining how schools are structured to prevent poor students and students of color from learning *Dismantling Contemporary Deficit Thinking* provides comprehensive critiques and anti deficit thinking alternatives to this oppressive theory by framing the linkages between prevailing theoretical perspectives and contemporary practices within the complex historical development of deficit thinking *Dismantling Contemporary Deficit Thinking* examines the ongoing social construction of deficit thinking in three aspects of current discourse the genetic pathology model the culture of poverty model and the at risk model in which poor students students of color and their families are pathologized and marginalized Richard R Valencia challenges these three contemporary components of the deficit thinking theory by providing incisive critiques and discussing competing explanations for the pervasive school failure of many students in the nation s public schools Valencia also discusses a number of proactive anti deficit thinking suggestions from the fields of teacher education educational leadership and educational ethnography that are intended to provide a more equitable and democratic schooling for all students *Children's Books in Print* R R Bowker Publishing,Bowker,1999-12 *Books In Print*
