Science Past Memo N 2 2014:

Airing the Past: Inquiries into Digital Memories Nuria Rodríguez Ortega, Fátima Díez-Platas, Seppo Kuivakari, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 The articles comprised in this anthology are attempting to discuss the rapid change of digital media technologies and the way they impetus our understanding of history and memory History should not be regarded only as an object of research It is also a subject performing and registering agency The aim of the articles will not be to cover the whole range of mediated histories but to claim fresh insights for debate and discovery in terms of digital memories In this sense contributions for this volume will leave the doors of perception Aldous Huxley wide open and sketch the impact of media to different cultural practices identity work and preservation of history as well as the examination of it Likewise divergence of the papers at hand indicates that the concept digital ought to be recognized as institutional practices methodological tools or as content providers for memories

Discordant Memories Alison Fields, 2020-02-06 On two separate days in August 1945 the United States dropped atomic bombs over the Japanese cities of Hiroshima and Nagasaki As the seventy fifth anniversary of these cataclysmic bombings draws near American and Japanese citizens are seeking new ways to memorialize these events for future generations In *Discordant Memories* Alison Fields explores through the lenses of multiple disciplines ongoing memories of the two bombings Enhanced by striking color and black and white images this book is an innovative contribution to the evolving fields of memory studies and nuclear humanities To reveal the layered complexities of nuclear remembrance Fields analyzes photography film and artworks offers close readings of media and testimonial accounts traces site visits to atomic museums in New Mexico and Japan and features artists who give visual form to evolving memories According to Fields such expressions of memory both inspire group healing and expose struggles with past trauma Visual forms of remembrance such as science museums peace memorials photographs and even scars on human bodies serve to contain or manage painful memories And yet the author claims distinct cultures lay claim to vastly different remembrances of nuclear history Fields analyzes a range of case studies to uncover these discordant memories and to trace the legacies of nuclear weapons production and testing Her subjects include the Bradbury Science Museum in Los Alamos New Mexico the Hiroshima Peace Memorial Museum in Japan the atomic photography of Carole Gallagher and Patrick Nagatani and artworks and experimental films by Will Wilson and Nanobah Becker In the end Fields argues the trauma caused by nuclear weapons can never be fully contained For this reason commemorations of their effects are often incomplete and insufficient Differences between individual memories and public accounts are also important to recognize *Discordant Memories* illuminates such disparate memories in all their rich complexity

Authoritarian Diffusion and Cooperation André Bank, Kurt Weyland, 2020-04-02 To shed light on the global reassertion of authoritarianism in recent years this volume analyses transnational diffusion and international cooperation among non democratic regimes How and with what effect do

authoritarian regimes learn from each other For what purpose and how successfully do they cooperate The volume highlights that present day autocrats pursue mainly pragmatic interests rather than ideological missions Consequently the connections among authoritarian regimes have primarily defensive purposes especially insulation against democracy promotion by the West As a result the authors do not foresee a major recession of democracy as occurred with the rise of fascism during the interwar years The chapters in this book were originally published in a special issue of Democratization

The Terrorism Trap Harrison Akins, 2023-06-20 After two decades and trillions of dollars the United States fight against terrorism has achieved mixed results Despite the vast resources and attention expended since 9 11 terrorism has increased in many societies that have been caught up in the war on terror Why have U S policies been unable to stem the tide of violence Harrison Akins reveals how the war on terror has had the unintended consequence of increasing domestic terrorism in U S partner states He examines the results of U S backed counterterrorism operations that targeted al Qaeda in peripheral regions of partner states over which their central governments held little control These operations often provoked a violent backlash from local terrorist groups leading to a spike in retaliatory attacks against partner states Senior U S officials frequently failed to grasp the implications of the historical conflict between central governments and the targeted peripheries Instead they exerted greater pressure on partner states to expand their counterterrorism efforts This exacerbated the underlying conditions that drove the escalating attacks trapping these governments in a deadly cycle of tit for tat violence with local terrorist groups This process Akins demonstrates accounts for the lion s share of the al Qaeda network s global terrorist activity since 2001 Drawing on extensive primary sources including newly declassified documents dozens of in depth interviews with leading government officials in the United States and abroad and statistical analysis *The Terrorism Trap* is a groundbreaking analysis of why counterterrorism has backfired

Objective Troy Scott Shane, 2016-09-13 Objective Troy tells the gripping and unsettling story of Anwar al Awlaki the once celebrated American imam who called for moderation after 9 11 a man who ultimately directed his outsized talents to the mass murder of his fellow citizens It follows Barack Obama s campaign against the excesses of the Bush counterterrorism programs and his eventual embrace of the targeted killing of suspected militants And it recounts how the president directed the mammoth machinery of spy agencies to hunt Awlaki down in a frantic multi million dollar pursuit that would end with the death of Awlaki by a bizarre robotic technology that is changing warfare the drone Scott Shane who has covered terrorism for The New York Times over the last decade weaves the clash between president and terrorist into both a riveting narrative and a deeply human account of the defining conflict of our era Awlaki who directed a plot that almost derailed Obama s presidency and then taunted him from his desert hideouts will go down in history as the first United States citizen deliberately hunted and assassinated by his own government without trial But his eloquent calls to jihad amplified by YouTube continue to lure young Westerners into terrorism resulting in tragedies from the Boston marathon bombing to the murder of cartoonists at a

Paris weekly Awlaki's life and death show how profoundly America has been changed by the threat of terrorism and by our own fears. Illuminating and provocative and based on years of in-depth reporting, Objective Troy is a brilliant reckoning with the moral challenge of terrorism and a masterful chronicle of our times. Advances in Food Bioproducts and Bioprocessing Technologies Monica Lizeth Chavez-Gonzalez, Nagamani Balagurusamy, Cristobal Aguilar, 2019-10-16 The book explores and exploits the synergy and boundary between biotechnology, bioprocessing and food engineering. Divided into three parts, Advances in Food Bioproducts and Bioprocessing Technologies includes contributions that deal with new developments in procedures, bioproducts and bioprocesses that can be given quantitative expression. Its 40 chapters will describe how research results can be used in engineering design, include procedures to produce food additives and ingredients and discuss accounts of experimental or theoretical research and recent advances in food bioproducts and bioprocessing technologies.

Remembering from the Outside Christopher McCarroll, 2018-06-01 When recalling events that one personally experienced sometimes one sees oneself in the remembered scene from an external detached observer perspective In such cases one remembers from the outside Remembering from the outside is a common yet curious case of personal memory This book disentangles the puzzles posed by such memories

Seeing the Future Tam Bang Vu, 2015-04-13 This book guides you through an enjoyable journey step by step into the future A team of fictional characters is introduced to share their learning and working experiences with the readers In the beginning of the book you will take the first step by learning the most basic models for one period forecasts based on past performance of a market You will also learn how to evaluate your newly built models Next you will progress further into intermediate level models including multi period forecasts based on past performance of a market or based on an external factor It also introduces interval forecasting which allows you to obtain a range of forecast values instead of a single value in the future In the second half you will familiarize yourself with advanced models that provide multi period forecasts based on multiple internal or external factors Toward the end you will learn several applied models in business and economics that will facilitate you with practical applications related to real life situations The last chapter summarizes all models introduced in this book and provides a table of references for finding the most important concepts tables and figures in the book so that you can recall every step of your adventure

China, Russia, and Twenty-first Century Global Geopolitics Paul J. Bolt, Sharyl Cross, 2018 This book provides a comprehensive analysis of the Chinese Russian bilateral relationship grounded in a historical perspective and discusses the implications of the burgeoning strategic partnership between these two major powers for world order and global geopolitics The volume compares the national worldviews priorities and strategic visions for the Chinese and Russian leadership examining several aspects of the relationship in detail The energy trade is the most important component of economic ties although both sides desire to broaden trade and investments In the military realm Russia sells advanced arms to China and the two countries engage in regular joint exercises Diplomatically these two Eurasian powers take similar approaches to conflicts in Ukraine and Syria and also cooperate on non traditional security issues including preventing coloured revolutions cyber management and terrorism These issue areas illustrate four themes Russia and China have common interests that cement their partnership including security protecting authoritarian institutions and re shaping aspects of the global order They are key

players not only influencing regional issues but also international norms and institutions The Sino Russian partnership presents a potential counterbalance to the United States and democratic nations in shaping the contemporary and emerging geopolitical landscape Nevertheless the West is still an important partner for China and Russia Both seek better relations with the West but on the basis of mutual respect and equality Lastly Russia and China have frictions in their relationship and not all of their interests overlap The Sino Russian relationship has gained considerable momentum particularly since 2014 as Moscow turned to Beijing attempting to offset tensions with the West in the aftermath of Russia s annexation of Crimea and intervention in Ukraine However so far China and Russia describe their relationship as a comprehensive strategic partnership but they are not allies
