

Autobiography

My name is Michael Smith and I was born on the 30th of August, 1967 in Long Beach, California. My parents were Eddie Smith and Joan Smith. Both of my parents are deceased. My mom died at the age of 57 in 1994 from lung cancer which was the result of smoking her whole lifetime. My father died at the age of 69 in 2006 from a massive heart attack, which was also the likely result from a lifetime of smoking. Fortunately I have been smart enough to avoid that bad habit.

My early childhood was a typical middle class environment circa the 1960's. My dad worked for Simpson Buick as a parts salesman and my mom was a stay at home mother. I had a happy, normal childhood as an only child, leaving me somewhat spoiled. My mom and dad divorced when I was eight years old and both remarried within a year or so of the divorce. My dad remained married to my stepmom Bev until his death. My mom would marry two more times. My first stepdad Vince became a big part of my life and I maintained close contact with him until his death in 2006, two days after my real dad died. Yes, that was a very bad week, losing both of my dads.

Growing up with split parents was not especially difficult since each of my parents kept me out of their divorce and they got along fine at events where both of them were present. I lived with my mom until I was 16 and in high school. By my sophomore year in high school I had begun to hang around with friends that got me into a lot of trouble with a number of things including smoking pot and drinking. I was rapidly heading down a negative path, but was fortunate enough to notice it before I had done any serious damage. I moved in with my dad and changed high schools and friends.

My Autobiography the Prequel: Volume 1, the Conception of "thy Death Valley House" for Beatty, Nevada Martin J. Blahník, MD, the Desert Doc, 2024-07-24 This is the first of a three volume memoir in the author's provocative tell all journey to feature the artistic side of the human condition As such there are matters that go well beyond Dr Blahník's professional career as a physician and scientist Yet they are the unbreakable rules of the Scientific Method that guide our deep understanding of the Darwinian evolution of the human mind the DNA driven emergence of the psychotic mental illnesses and what we call human creativity In this first volume the lively narrative quickly connects us to the author's True Love for the American desert lands indeed the desert is his mistress in particular Death Valley National Park Then the whimsical adventure travels to Europe to Paris and Berlin but also elsewhere along the way always with a keen interest and focus on thought provoking matters of history All three books have the words in their titles thy Death Valley House for Beatty

Nevada It is the artist's legacy objective to build this house in the small historic mining town certified as the Gateway to Death Valley called Beatty Given the author's decades of experience in Death Valley as a professional landscape photographer his very long Chapter Six dramatically profiling the 1960s Charles Manson hippie cult in Death Valley Country is something whereby Dr Blahnik has been duly authorized to make the claim with confidence No one can tell this story of Charles Manson in Death Valley in the manner that I have Furthermore it is decidedly engaging and indeed surprising to observe the extent to which the history of some members of the cult serves as a foil to the author's character Imagine that

A Hundred English Working-Class Lives, 1900-1945 Rebecca Ball, 2024-07-11 Stanley Rice born in London in 1905 began his autobiography by stating that his life was an ordinary average life with all its ups and downs Stanley may have described his life as ordinary and yet he lived through a period of rapid social change including two world wars Despite this Stanley assumed that his life story would be of little interest to most readers as he had not achieved great fame or any notable accolades This book argues that this is exactly why historians should focus on such life stories as there is much to be gained by focusing on memories of ordinary average lives as they can expand our knowledge of the past often revealing firsthand experiences that have been excluded from the historical record This book does not intend to be a general social history of the working class Rather it is a work of memory drawing upon a microhistory methodology to examine how a sample of one hundred working class autobiographers remembered and wrote about living through years that were punctuated by two worldwide conflicts and a global economic depression **The Great Wall of Confinement** Philip F. Williams, Yenna Wu, 2004-08-17 China is the only major world power to have entered the twenty first century with a thriving prison camp network a frightening mostly hidden realm known since 1951 as the laogai system This book the most comprehensive study of China s prison camps to date draws from a wide range of primary sources including many compelling literary documents

to illuminate life inside China's prison camps Focusing mainly on the second half of the twentieth century Philip F Williams and Yenna Wu outline the evolution of the laogai system construct a vivid picture of prisoners lives from arrest and interrogation to release and provide a troubling new perspective on the human rights issues plaguing China The Nineteenth Century Periodical Press and the Development of Detective Fiction Samuel Saunders,2021-05-11 This book reimagines nineteenth century detective fiction as a literary genre that was connected to and nurtured by contemporary periodical journalism Whilst detective fiction is almost universally accepted to have originated in the nineteenth century a variety of widely accepted scholarly narratives of the genre's evolution neglect to connect it with the development of a free press The volume traces how police officers detectives criminals and the criminal justice system were discussed in the pages of a variety of magazines and journals and argues that this affected how the wider nineteenth century society perceived organised law enforcement and detection This in turn helped to shape detective fiction into the genre that we recognise today The book also explores how periodicals and newspapers contained forgotten non canonical examples of detective fiction and that these texts can help complicate the narrative of the genre's evolution across the mid to late nineteenth century *Justice While Black* Robbin Shipp,Nick Chiles,2014-10-01 An essential guide for Black Americans to understanding the criminal justice system and why it continues to see Black men as targets and as dollar signs *Justice While Black* is a must read for every young Black male in America and for everyone else who cares about their survival and well being The book provides practical straightforward advice on how to deal with specific legal situations the threat of arrest being arrested being in custody preparing for and undergoing a trial and navigating the appeals and parole process The primary goal of this book is to become a primer for African Americans on how to avoid becoming ensnared in the criminal justice system While the precarious safety of Black males has received renewed interest in the past year because of the deaths of young men like Daunte Wright and Ryan LeRoux the fact is that this group has always been under threat from the armed guardians of the White social order The tactics have been modernized but the impact is still devastating we are witnessing an epic criminalization of the African American community at levels never before seen since the end of slavery

Stories and Their Limits Hilde Lindemann Nelson,2014-01-21 Narratives have always played a prominent role in both bioethics and medicine the fields have attracted much storytelling ranging from great literature to humbler stories of sickness and personal histories And all bioethicists work with cases from court cases that shape policy matters to case studies that chronicle sickness But how useful are these various narratives for sorting out moral matters What kind of ethical work can stories do and what are the limits to this work The new essays in *Stories and Their Limits* offer insightful reflections on the relationship between narratives and ethics **Crime Fiction from a Professional Eye** Lili Pâquet,2018-09-03 There is a new category of authors blurring the line between fiction and nonfiction women who work or have worked in criminal justice lawyers police officers and forensic investigators who publish crime fiction with characters that resemble real life

counterparts Drawing on their professional experience these writers present compelling portrayals of inequality and dysfunction in criminal justice systems from a feminist viewpoint This book presents the first examination of the true crime infused fiction of authors like Dorothy Uhnak Kathy Reichs and Linda Fairstein
