present a new interpretation of early Roman warfare and how it related to the city's various social political religious and economic institutions Largely casting aside the anachronistic assumptions of late republican writers like Livy and Dionysius of Halicarnassus it instead examines the general modes of behaviour evidenced in both the literature and the archaeology for the period and attempts to reconstruct based on these characteristics the basic form of Roman society and then to re map that on to the extant tradition It will be important for scholars and students studying many aspects of Roman history and warfare but particularly the history of the regal and republican periods      *Conversations with Catalogers in the 21st Century* Elaine R.
