Gardiner, 2013-03-21 Climate change is genuinely global dominantly intergenerational and takes place in a setting where our prescriptive theories are weak This perfect moral storm poses a profound challenge to humanity This book explains the storm how it makes sense of our current malaise and why better ethics can help This book argues that despite decades of awareness we are currently accelerating hard into the climate problem in a way that defies standard explanations It claims that this suggests that our current focus on the scientific and economic questions is too narrow and that the tendency to see the political problem as a traditional tragedy of the commons

facing nation states is too optimistic. Instead the key issue is that the current generation and especially the most affluent are in a position to pass on most of the costs of their behavior and especially the most serious harms to the global poor future generations and nonhuman nature. This tyranny of the contemporary is a deeper problem than the traditional tragedy of the commons. Moreover the book argues that this diagnosis helps to explain both the past failures of international climate policy e.g. the shadow solutions of Kyoto and Copenhagen and the current push towards geoengineering. Part of the solution it argues is better public ethics. We must work harder on articulating both the ethical problem and moral constraints on solutions. In addition there is a role for defensive moral and political philosophy aimed at preserving the quality of public discourse.

Brandes,Stephen Gurman,2009-09-02 Based on the soft path approach to the energy sector a transition is now under way to a soft path for water This approach starts by ensuring that ecosystem needs for water are satisfied and then undertakes a radical approach to reducing human uses of water by economic and social incentives including open decision making water markets and equitable pricing and the application of super efficient technology all applied in ways that avoid jeopardizing quality of life The soft path for water is therefore a management strategy that frees up water by curbing water waste This book is the first to present and apply the water soft path approach It has three aims to bring to a wider audience the concept and the potential of water soft paths to demonstrate that soft path analysis is analytical and practical and not justeco

Docudrama Performs the Past Steven N. Lipkin, 2011-01-18 Docudramas films and movies of the week based on true stories offer their audiences performance as persuasion As docudramas re create actual people and events these works perform their material The premises of docudramas persuasive arguments operate within the basic settings that stage performances of noteworthy events the events of war and the lives of noteworthy individuals In performing the past docudramas offer us a performance of memory Through docudramatic performance the memories of others become ours The performance of memory roots docudramatic representation in actuality and indicates the responsibility to serve the past that helps make docudrama a distinctive mode of representation The spirit of obligation to the past also frames the ethical considerations docudrama raises as performance in docudrama shapes public memory *Docudrama Performs the Past* examines the spectrum of arguments docudramas offer as their re creations reason from the arenas of events such as the hijacking of United Airlines Flight 93 wars ranging from World War II to Iraq and the lives of actors athletes and politicians The case studies developed in each chapter show how docudrama's re creation of true stories its performance of memory warrants the claims it forwards about how to remember the past The aggregate of examining works made since the late 1990s allows us to see how as recurring contexts the arenas of docudramatic argument ground action and identity in the settings that frame performance structure the moral value of the contestation that ensues and shape the public memory of the past that docudramas perform

George Clooney Paul McDonald, 2019-05-02 Paul McDonald's study of the actor filmmaker George Clooney traces the star's career from his role in the hit television medical drama ER to his dual screen persona allowing him to move seamlessly from commercial hits such as *Out of Sight* 1998 and *Ocean's Eleven* 2001 to more offbeat roles in such films as *Oh Brother Where Art Thou* 2000 McDonald also considers Clooney's political activism and his roles in such explicitly political films as *Three Kings* 1999 and *Syriana* 2005 as well as his work as a producer of films including *Argo* 2012 and as director of *Confessions of a Dangerous Mind* 2002 *Good Night and Good Luck* 2005 and *Suburbicon* 2017 among others McDonald places Clooney in the context of the Hollywood star system considering the argument that Clooney's star persona has many

similarities with that of Classical Hollywood movie stars such as Cary Grant but also addresses Clooney as a very 21st century transmedia celebrity **Fatal Workplace Injuries in 1996 ,1998** **Compensation and Working Conditions ,1998**
