Multimedia Retrieval: Identifying, Summarizing, and Recommending Image and Music Marcin Detyniecki,Ulrich Leiner,Andreas Nürnberger,2010-07-10 This volume constitutes the refereed proceedings of the 6th International Workshop on Adaptive Multimedia Retrieval AMR 2008 held in Berlin Germany in June 2008 **Fractional Modeling and Controller**

Design of Robotic Manipulators Abhaya Pal Singh, Dipankar Deb, Himanshu Agrawal, Valentina E. Balas, 2020-10-15 This book at hand is an appropriate addition to the field of fractional calculus applied to control systems. If an engineer or a researcher wishes to delve into fractional order systems then this book has many collections of such systems to work upon and this book also tells the reader about how one can convert an integer order system into an appropriate fractional order one through an efficient and simple algorithm. If the reader further wants to explore the controller design for the fractional order systems then for them this book provides a variety of controller design strategies. The use of fractional order derivatives and integrals in control theory leads to better results than integer order approaches and hence provides solid motivation for further development of control theory. Fractional order models are more useful than the integer order models when accuracy is of paramount importance. Real time experimental validation of controller design strategies for the fractional order plants is available. This book is beneficial to the academic institutes for postgraduate and advanced research level that need a specific textbook on fractional control and its applications in robotic manipulators. The book is also a valuable teaching and learning resource for undergraduate and postgraduate students. COVID-19 and Society Mustafa

Polat, Serhat Burmaoglu, Ozcan Saritas, 2022-11-16 This timely book presents a collection of expert insights into the impacts of COVID 19 in a broader socio economic context. In each chapter the authors identify the current impact of COVID 19 by demonstrating transformative signals and project these signals to the future by considering their alternative futures and implications. The book emphasizes that dealing with major global pandemics like COVID 19 requires all countries and regions to take different but synchronized measures to decrease its socio economic effects in the short medium and long run. The consequences of COVID 19 will go beyond medicine to cover all other aspects of life and are bound to change the nature of organizations. Moving beyond the medical viewpoint the experts in this book discuss the topic from multi dimensional and multi disciplinary angles by focusing on the domains of technology business finance marketing law public administration and education.
