A Sample Qualitative Research Proposal Written in the APA 6th Style

Flow: This sample proposal is based on a composite of past proposals, statistical information, and references, and material I've collected for themselves purposes. It is based roughly on fairly standard research proposal I've taught because there is no one set way of doing qualitative research proposal. Much of its design is based on the nature of the research, your preferences, and your decisions about how to structure a writing, what it is you plan to accomplish. The material in this document was adapted primarily from a dissertation proposal created by Dr. Nancy Matthews. A template is not included in this sample proposal. Introduction

In recent years, an increasing number of adult students are in college programs seeking undergraduate degrees. Many more of the year formerly accepted by the institution. In 20 years, we estimate (ages, 1980; Jones, 1980; Larkin, 1980; Jones & Larkin, 1980) that the per cent students study up the greater part of this century. Indeed the number of full-time adult students is still quite small, particularly at four-year colleges and universities. It is the small number of full-time adult undergraduate the university, because there is the almost possibility that the group will continue to grow in numbers. In the summer period the changed dramatically in recent years, the number of adults "available" for full-time study has also changed. It includes the increased unemployment figures, as well as the declining job opportunities available in many regions of the country, have affected the number.

In addition to the loss of a job and the possible need for additional education to obtain new skills, other factors are present:

- the decision to enter the job market and the need for "fresh up" or develop new skills;
- early retirement and the decision to enroll in further study;
- a change in work-life balance (family, individually related needs in a career because and the corresponding need for additional education;
- increased responsibility for adults particularly women to raise a child (ages, 1980).

Report in the literature and universities with many adult students confirm that colleges and universities will have an really come to come with these other factors. Although some universities have added special counseling and assistance programs, teachers, school social workers, advisors, and librarians, other responses have been less highly organized. Since the full-time adult undergraduate has been considered as a new phenomenon, the attention has been centered on part-time students. Therefore, almost none of the support services and resources
