YCT Expert Team

November 2014 Economics Paper 1 Grade 1:

Generation Jobless? P. Vogel, 2015-03-05 Offering guidance on the opportunities and threats for future generations and featuring interviews with business leaders this book provides a constructive look at change. It directs the youth to become job creators not job seekers and to approach the corporate and political worlds with an entrepreneurial mind set. **Handbook of Academic Integrity** Sarah Elaine Eaton, 2023-12-04 The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy. At the same time the Handbook does not shy away from some of the vigorous debates in the field such as the causes of academic integrity breaches. There has been an explosion of interest in academic integrity in the last 20-30 years. New technologies that have made it easier than ever for students to cut and paste coupled with global media scandals of high profile researchers behaving badly have resulted in the perception that plagiarism is on the rise. This in combination with the massification and commercialisation of higher education has resulted in a burgeoning interest in the importance of academic integrity: how to safeguard it and how to address breaches appropriately. What may have seemed like a relatively easy topic to address, students copying sources without attribution has in fact turned out to be a complex interdisciplinary field of research requiring contributions from linguists, psychologists, social scientists, anthropologists, teaching and learning specialists, mathematicians, accountants, medical doctors, lawyers and philosophers to name just a few. Because of this broad interest and input this handbook serves as the single authoritative reference work which brings together the vast growing interdisciplinary and at times contradictory body of literature. For both established researchers/practitioners and those new to the field this Handbook provides a one-stop shop as well as a launching pad for new explorations and discussions. The Challenge of Independent Colleges Christopher C. Morphet, John M. Braxton, 2017-12 Weerts Cynthia A Wells Letha Zook William T Luckey President Lindsey Wilson College Metrics That Matter Zachary Bleemer, Mukul Kumar, Aashish Mehta, Chris Muellerleile, Christopher Newfield, 2023-03-21 This book examines alternative perspectives on often flawed and misleading college metrics to help students make important education decisions. Energy, Capitalism and World Order Tim Di Muzio, 2024-12-26 This original timely and innovative collection is the first to offer critical IPE perspectives on the interconnections between energy, capitalism and the future of world order. The authors discuss the importance of energy for our understanding of the global political economy, climate change and key new developments like fracking. **2025-26 UPPSC LT Grade Economics.** YCT Expert Team, 2025-26 UPPSC LT Grade Economics 400-795 This book contains the study material based on the asked questions in the previous examination. **Proceedings of the 2022 International Conference on Economics, Smart Finance and Contemporary Trade (ESFCT 2022)** Faruk Balli, Au Yong Hui Nee, Sikandar Ali Qalati, 2023-12-19 This is an open access book. As a leading role in the global megatrend of scientific innovation, China has been creating a more and more open environment for scientific innovation, increasing the depth and

breadth of academic cooperation and building a community of innovation that benefits all Such endeavors are making new contributions to the globalization and creating a community of shared future To adapt to this changing world and China's fast development in the new era The 2022 International Conference on Economics Smart Finance and Contemporary Trade to be held in July 2022 This conference takes bringing together global wisdom in scientific innovation to promote high quality development as the theme and focuses on cutting edge research fields including Economics Smart Finance and Contemporary Trade This conference aims to boost development of the Greater Bay Area expand channels of international academic exchange in science and technology build a sharing platform of academic resources promote scientific innovation on the global scale strengthen academic cooperation between China and the outside world enhance development of new energy and materials and IT AI and biomedicine industries It also aims to encourage exchange of information on frontiers of research in different areas connect the most advanced academic resources in China and the world turn research results into industrial solutions and bring together talents technologies and capital to boost development
