Injustice Danny Dorling, 2015-06-03 In the five years since the first edition of *Injustice* there have been devastating increases in poverty hunger and destitution in the UK Globally the richest 1% have never held a greater share of world wealth while the share of most of the other 99% has fallen in the last five years with more and more people in debt especially the young Economic inequalities will persist and continue to grow for as long as we tolerate the injustices which underpin them This fully rewritten and updated edition revisits Dorling's claim that Beveridge's five social evils are being replaced by five new tenets of injustice elitism is efficient exclusion is necessary prejudice is natural greed is good and despair is inevitable By showing these beliefs are unfounded Dorling offers hope of a more equal society We are living in the most remarkable and dangerous times With every year that passes it is more evident that *Injustice* is essential reading for anyone concerned with social justice and wants to do something about it **Understanding Housing Policy** Brian

Lund, 2017-04-26 The 3rd edition of this bestselling textbook has been completely revised to address the range of socio economic factors that have influenced UK housing policy in the years since the previous edition was published The issues explored include the austerity agenda the impact of the Coalition government's housing policies the 2015 Conservative government's policy direction the evolving devolution agenda and the recent focus on housing supply The concluding chapter examines new policy ideas in the context of theoretical approaches to understanding housing policy laissez faire economics social reformism Marxist political economy behavioural perspectives and social constructionism Throughout the textbook substantive themes are illustrated by boxed examples and case studies The author focuses on principles and theory and their application in the process of constructing housing policy ensuring that the book will be a vital resource for undergraduate and postgraduate level students of housing and planning and related social policy modules *Scotland's Choices* Iain

McLean, 2014-05-30 *Scotland's Choices* now fully revised for the critical last few months before the referendum explains the choice that Scotland will have to make in September 2014 The authors clearly explain the issues and how each of the options would be put into place *Chinese Foreign Relations* Robert G. Sutter, 2016-01-14 This comprehensive introduction to Chinese foreign relations assesses the accomplishments and limits China faces as it exerts increasing international influence This balanced and thorough assessment shows China's leaders exerting more influence in world affairs but remaining far

from dominant even in key areas along China's border

The People's Flag and the Union Jack Gerry Hassan, Eric Shaw, 2019-05-07 The British Labour Party has at times been a force for radical change in the UK but one critical aspect of its makeup has been consistently misunderstood and underplayed its Britishness Throughout the party's history its Britishness has been an integral part of how it has done politics acted in government and opposition and understood the UK and its nations and regions The People's Flag and the Union Jack is the first comprehensive account of how Labour has tried to understand Britain and Britishness and to compete in a political landscape defined by conservative notions of nation patriotism and tradition At a time when many of the party faithful regard national identity as a toxic subject academics Gerry Hassan and Eric Shaw argue that Labour's Britishness and its ambiguous relationship with issues of nationalism matter more today than ever before and will continue to matter for the foreseeable future when the UK is in fundamental crisis As debate rages about Brexit and the prospect of Scottish independence remains live this timely intervention featuring contributions from a wealth of pioneering thinkers offers an illuminating and perceptive insight into Labour's past present and future

The Collapse of Venezuela Francisco Rodríguez, 2025-03-15 The Collapse of Venezuela documents Venezuela's economic implosion as politicians adopted strategies that severely harmed the economy in their struggle for power Between 2012 and 2020 Venezuela suffered the largest economic contraction ever documented outside of wartime This collapse was caused not just by the failure of an economic model but also the deeper failure of its political system to manage the conflicts inherent to a polarized society The Collapse of Venezuela argues that when the stakes of power are high politicians have an incentive to adopt political strategies that directly harm the economy Author Francisco Rodríguez describes these scorched earth strategies and shows how politicians used these methods to target the Venezuelan economy in their fight for power Ultimately the conflicting sides have trapped the economy in a catastrophic stalemate that has destroyed the country's living standards and turned the economy into a political battlefield By charting Venezuela's experience with scorched earth politics Rodríguez reveals an essential cautionary tale for other democracies around the globe

Before Official Multiculturalism Franca Iacovetta, 2022-11-01
