Generation Jobless? P. Vogel, 2015-03-05 Offering guidance on the opportunities and threats for future generations and featuring interviews with business leaders this book provides a constructive look at change It directs the youth to become job creators not job seekers and to approach the corporate and political worlds with an entrepreneurial mind set The Decline of America David D. Schein, 2018-02-13 The Decline of America offers a carefully documented analysis of the last seventeen U S presidents These men eight Democrats and nine Republicans have shaped the last 100 years not only for America but for the world Each president is profiled with unsparing scrutiny so we can see where it s all gone wrong David Schein follows these critiques by proposing ways to improve America s outlook for the next 100 years before it s too late **Handbook of Academic Integrity** Sarah Elaine Eaton, 2023-12-04 The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy At the same time the Handbook does not shy away from some of the vigorous debates in the field such as the causes of academic integrity breaches There has been an explosion of interest in academic integrity in the last 20 30 years New technologies that have made it easier than ever for students to cut and paste coupled with global media scandals of high profile researchers behaving badly have resulted in the perception that plagiarism is on the rise This in combination with the massification and commercialisation of higher education has resulted in a burgeoning interest in the importance of academic integrity how to safeguard it and how to address breaches appropriately What may have seemed like a relatively easy topic to address students copying sources without attribution has in fact turned out to be a complex interdisciplinary field of research requiring contributions from linguists psychologists social scientists anthropologists teaching and learning specialists mathematicians accountants medical doctors lawyers and philosophers to name just a few Because of this broad interest and input this handbook serves as the single authoritative reference work which brings together the vast growing interdisciplinary and at times contradictory body of literature For both established researchers practitioners and those new to the field this Handbook provides a one stop shop as well as a launching pad for new explorations and discussions

Promoting Information in the Marketplace for Financial Services Paul Latimer, Philipp Maume, 2014-11-14 This book provides a unique comparative and global analysis of the regulation of disclosure in financial securities markets It is written by two authors who represent both the new world Australia and the old world Germany The authors present their research in the global business context with legal and regulatory perspectives including some references from Africa Asia the Middle East and South America After every boom and bust legislators pass new disclosure legislation often in a heated environment fuelled by politics and the media Little regard is paid to existing regulation or the lessons learned from earlier regulation The result is the continuing enactment of redundant and overlapping disclosure laws Since financial markets are

often described as markets for information the failure to ensure disclosure is at the heart of financial services regulation This book argues that the solution to the failure of disclosure is a brief easily understood principles based plain English safety net amendment to statute law such as you must keep the financial market fully informed a measure that would support effective mandatory continuous disclosure of information to financial markets This book examines the reasons for disclosure regulation and how the efficient operation of financial markets is dependent on disclosure It examines the adequacy of common law and civil law concerning broker client disclosure and concludes that industry licensing in itself fails to keep the market informed While recognizing the failures of securities commissions to achieve good disclosure in financial markets it confirms the effectiveness of coregulation of disclosure by a commission with the support of the financial markets such as the stock exchange Coregulation builds on financial market self regulation and is best described in the words of one time SEC Chairman William O Douglas who in the 1930s described it as a shotgun behind the door Comprehensive analysis of disaster risk reduction and management system for agriculture in Serbia Food and Agriculture Organization of the United Nations,2024-01-22 This report aims to highlight the current strengths of the institutional disaster risk reduction DRR system for agriculture in Serbia as well as indicate existing gaps and capacity needs to further enhance it A comprehensive assessment is conducted which includes a general overview of the country s agriculture sector and outlines the most frequent natural hazards that are impacting the sector It is followed by an analysis of the existing legal policy and institutional structure and discusses various components of the system including the functioning of early warning systems assessments of disaster risks post disaster needs assessments including damages and losses assessments and the availability of agricultural insurance for farmers It concludes by providing recommendations for capacity building interventions to strengthen the current system to reduce the adverse impacts of natural hazards in particular floods landslides and droughts and climate change on agriculture in Serbia Gender (In)equality and Social Development Chandrima Chakraborty,Dipyaman Pal,M. Ozgur Kayalica,2025-09-30 This book focuses on gender issues and its relation with social development in shaping the current and future global scenario considering three broad dimensions namely health education and environment and other SDG implications It specifically highlights environmental awareness policy women empowerment marginalized women poverty government policy women in labor force childcare services in reducing gender inequality and beneficial to SDGs The book provides a wealth of information for researchers undergraduates and postgraduates as well as policymakers and government officials Faculty members of economics and other disciplines like business and management environmental studies sociology education health economics among others can teach their students using this book as reference The book also provides a valuable source of information for policy makers related to ministries of women and child development gender equality child development and family welfare and so on An Evaluation of the Public Schools of the District of Columbia National Research Council,Division of Behavioral and Social Sciences and Education,Board on Testing

An Age of Accountability John L. Rury, 2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree
