### **November 20paper 3 A Level Economics Zimsec:**

Fostering Long-Term Sustainable Development in Africa David Mhlanga, Mufaro Dzingirai, 2024-08-31 This book provides a broad and insightful guide to the economic social and environmental concerns seen within Africa It highlights the central economic challenges faced by African countries and outlines ways in which long term sustainable development in Africa can be achieved A particular focus is given to issues of poverty inequality and unemployment and how poor infrastructure limited healthcare and education and environmental deterioration are exacerbating these issues By looking at the limited effectiveness of traditional development initiatives a new framework for economic development is presented that focuses on community ownership and long term sustainability and which acknowledges the history of colonisation economic exploitation and political instability that has held Africa back in the past This book takes hope from countries within the Global South that have moved towards sustainable development and sets out ways in which other countries can follow them It will be relevant to students researchers and policymakers interested in development and environmental economics

Bureaucracy, Law and Dystopia in the United Kingdom's Asylum System John R. Campbell, 2016-12-01 The central concern of this book is to find answers to fundamental questions about the British asylum system and how it operates Based on ethnographic research over a two year period the work follows and analyses numerous asylum appeals through the British courts It draws on myriad interviews with individuals and a thorough examination of many state and non state organizations to understand how the system works While the organization of the book reflects the formal asylum process a focus on specific legal appeals reveals the political factors at play as different institutions and actors seek to influence judicial decision making and overturn uphold official asylum policy The final chapter draws on the author's ethnographic findings of the UK's asylum field to re-examine research on the Refugee Determination System in the US Canada and Australia which has narrowly focused on judicial decision making It argues that analysis of Refugee Determination Systems must be situated and studied as part of a wider political semi autonomous asylum field which needs to be better understood Providing an in depth ethnographic study of a national asylum system and of immigration law and practice the book will be an invaluable resource for academics researchers and policy makers in the UK and beyond working in this highly topical area
