NEWTON'S LAWS

State the following laws:

1. Newton's second law of motion
2. Newton's law of universal gravitation

QUESTION 2

A block of mass 1 kg is connected to another block of mass 4 kg by a light inextensible string. The 1 kg block is on the inclined plane, by means of a constant 40 N force parallel to the plane as shown in the diagram below. The magnitude of the kinetic frictional force between the surface and the 4 kg block is 10 N. The coefficient of kinetic friction between the 1 kg block and the surface is 0,20.

- 2.1 State Newton's third law of motion in words. (2)
- 2.2 Draw a labelled free-body diagram showing ALL the forces acting on the 1 kg block as it moves up the incline. (5)
- 2.3 Calculate the magnitude of the:
 - 2.3.1 Kinetic frictional force between the 1 kg block and the surface (2)
 - 2.3.2 Tension in the string connecting the two blocks (5)

QUESTION 15

Block P, of mass 2 kg, is connected to block Q, of mass 3 kg, by a light inextensible string. Both blocks are on a plane inclined at an angle of 30° to the horizontal. Block Q is pulled by a constant force of 40 N at an angle of 25° to the incline.

Block P moves on a rough section, AB, of the incline, while block Q moves on a frictionless section, BC, of the incline. See diagram.

An average constant frictional force of 2,5 N acts on block P as it moves from A to B up the incline.

- 15.1 State Newton's Second Law in words. (2)
- 15.2 Draw a labelled free-body diagram for block P. (4)
- 15.3 Calculate the magnitude of the acceleration of block P while block P is moving on section AB. (8)

- 15.4 If block P has now passed point B, how will its acceleration compare to that calculated in QUESTION 15.3? Choose from: GREATER THAN, SMALLER THAN, or EQUAL TO. Give a reason for the answer. (2)

November Cabs 2013 Memo:

Margaret Thatcher, the Conservative Party and the Northern Ireland Conflict, 1975-1990 Stephen Kelly, 2021-01-14
Winner of the 2022 CHOICE Outstanding Academic Titles The first woman elected to lead a major Western power and the longest serving British prime minister for 150 years Margaret Thatcher is arguably one the most dominant and divisive forces in 20th century British politics Yet there has been no overarching exploration of the development of Thatcher s views towards Northern Ireland from her appointment as Conservative Party leader in 1975 until her forced retirement in 1990 In this original and much needed study Stephen Kelly rectifies this From Thatcher s no surrender attitude to the Republican hunger strikes to her nurturing role in the early stages of the Northern Ireland peace process Kelly traces the evolutionary and sometimes contradictory nature of Thatcher s approach to Northern Ireland In doing so this book reflects afresh on the political relationship between Britain and Ireland in the late 20th century An engaging and nuanced analysis of previously neglected archival and reported sources *Margaret Thatcher the Conservative Party and the Northern Ireland Conflict 1975 1990* is a vital resource for those interested in Thatcherism Anglo Irish relations and 20th century British political history more broadly

EU Foreign Policy and Hamas Adeeb Ziadeh, 2017-10-20 Shortly after the overwhelming victory of Hamas in the 2006 parliamentary and municipal elections civil war broke out in the Gaza Strip between members of the two factions Hamas and Fatah The EU along with the US UN and Russia not only gave its support to Fatah against Hamas but also imposed a tough siege on the Hamas government in an attempt to force it to accept the Quartet s political conditions described by Hamas leaders as unfair and impossible Many observers are convinced that the EU s behaviour in this matter has been unreasonable and has conflicted with the EU s own democratic beliefs and values This book sheds light on the EU s policies in Palestine mainly from 2003 2013 and provides a thorough examination of the inconsistencies and paradoxes in the EU discourse towards Hamas and the determinants underlying such contradictions It explores the reasons behind the EU labelling the Hamas a terrorist organization and discusses why the EU has boycotted its democratically elected body since 2006 Significantly the book looks at whether the EU jeopardized its reputation and contravened its core normative values and objectives democracy promotion human rights the rule of law and fundamental freedoms by such a categorisation of Hamas Exploring the EU s policy towards Hamas is vital for understanding how the relationship between the EU and the rest of the Islamists in the Middle East is perceived as it enables both sides to have a cognitive basis upon which to construct better relations This book based upon a vast spread of primary EU documents and interviews will therefore be a valuable resource for those studying the Arab Israeli conflict Political Islamic movements the Middle East Peace Process and anyone with an interest in European Union Foreign Policy

Operations 1882-1914 Joseph Moretz, 2025-11-30 The projecting of military force to a distant shore has come to be seen as a uniquely British way of waging war To be sure many of these operations would now be classed as administrative landings with battle if occurring at all only following sometimes afterward Others of course merit the label of opposed landings To contemporaries of the period covered by this study the evolutions went by the appellation of conjoint or combined operations Less important than how they were styled remains the thought and the purpose giving rise to these ventures In the decades before the First World War professionals appreciated the myriad difficulties and dangers associated with amphibious operations The laity including statesmen thought rather less of these matters but could recount numerous examples of their occurrence before 1914 Indeed whatever operational failings Britain demonstrated during the World War a corpus of relevant experience was the least of these What is now styled joint amphibious operations were difficult because they were never of a single type Naval support to a military force standing on the defensive raids feints blocking operations riverine operations and yes an opposed landing spoke to a series of joint operations of ever increasing complexity Meanwhile as every operation must at some point end even the manner of evacuation came to be viewed as a special type of combined operation to be understood and learned Finally it remained that in a campaign of the grandest scale examples of each might feature at differing moments along the way Landings before 1914 were difficult and what military and naval authorities thought feasible before the onset of the World War in the realm of joint operations is a neglected field of study a surprising omission given the ink that has been spilt retelling the debacles experienced at Gallipoli Mesopotamia and East Africa Every campaign has its context operational and strategic to be sure but also political doctrinal and bureaucratic How Britain elected to wage war in 1914 proved a product of these variables just as surely as the military and naval capabilities it could muster Tying the strands of pre war military experience and thought in the realm of joint operations is the chief purpose of this study which takes as its starting point 1882 and the British assault against Egypt The choice is far from arbitrary as the moment saw several earning their spurs who would later play a central role in the amphibious operations executed during the Great War To the extent learning is more than the product of self experience this work pays special attention to the Russo Japanese War Thinking officers appreciated that fundamental changes were occurring in the nature and style of war A learned public also

appreciated this courtesy of works such as Ivan Bloch's *Is War Now Possible* Notwithstanding what British officers understood on the eve of the World War the problem of time and scale remained This alone should give one pause before chiding others over past mistakes This study looks at what was thought what was taught what was expected and what occurred in the thirty years before Britain found herself facing a scale of conflict not witnessed in a century **British Government Policy and Decolonisation, 1945-63** Frank Heinlein, 2013-12-16 This book is an in depth study of the importance of the Empire Commonwealth in the two decades after WWII for Britain's self image as a great power By studying a wide range of debates on general and specific imperial problems the book highlights the official mind of decolonization and of late imperialism **TERI Energy and Environment Data Diary and Yearbook (TEDDY) 2014/15** The Energy & Resources Institute (TERI), 2015-03-30 TERI Energy and Environment Data Diary and Yearbook TEDDY is an annual publication brought out by The Energy and Resources Institute TERI since 1986 It is the only comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors coal and lignite petroleum and natural gas power and renewable energy sources energy demand sectors agriculture industry transport residential and commercial sectors and environment local and global It also provides a review of the government policies that have implications on energy and environment in India Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time These energy balances and conversion factors are a valuable reference for researchers scholars and organizations working on energy and related sectors After the introductory chapters TEDDY has been divided into sections on energy supply energy demand and local and global environment The twenty ninth edition of the publication TEDDY 2014 15 comes with several interesting features The Green Focus at the end of each chapter highlights sustainable initiatives and successful practices The publication also features a section with a discussion around sustainable development goals and tracking framework for sustainable energy goals at global national and sub national levels Graphs maps and tables have been used in all chapters to explain facts which make the book an interesting read In addition detailed tables at the end of each chapter represent statistical data on energy and environment The publication is accompanied by a complimentary CD containing full text The publication is cited in international peer reviewed journals and policy documents

The British Prime Minister in the Core Executive Birgit Bujard, 2018-07-21 This book examines the UK prime minister's political leadership in the domestic executive By offering a comparative study of the political leadership of James Callaghan Margaret Thatcher John Major and Tony Blair with regard to European monetary policy it challenges the thesis that British prime ministers today have more power resources and autonomy than their predecessors giving them a greater capacity to act Taking key European monetary policy decisions by the British government between 1976 and 2007 as empirical cases the book assesses the extent to which the political leadership of each prime minister was affected by the cabinet the

parliamentary party as well as the media and the extent to which he or she was able to manage these factors. It becomes clear from this analysis that prime ministerial predominance is not as frequent as suggested while collective leadership does not represent a return to cabinet government. Moreover, particularly the party in government affects the prime minister's leadership by shaping his or her options on appointments and therefore the composition of the core executive and through its behaviour in parliament e.g. through rebellions or the threat of them.

The Plans of War John Gooch, 2015-10-05

This book's contribution to the discussion on the origins of the First World War is a pioneering study of both the British General Staff and the evolution of military strategy in the period immediately prior to the war. It describes the development of the General Staff, Britain's agency for strategic planning, and goes on to give an account of its role in devising strategy. Problems are examined as they arose at grass roots level in the War Office and progressed upward towards the Cabinet. The complex cross currents involving the Admiralty, Foreign Office, Treasury and individuals from Edward VII downwards are charted. The account covers British military policy up to 1916, interpreting the Gallipoli campaign and explaining its failure.
