Biodiversity and Distribution of Benthic Invertebrates - From Taxonomy to Ecological Patterns and Global Processes Marcos Rubal, Jose Manuel Guerra-García, Juan Moreira Da Rocha, Carlos Navarro Barranco, Macarena Ros, Puri Veiga, 2022-03-17

An Invitation to Slow Mark R. McMinn, Lisa Graham McMinn, 2024-10-22 We live in a day of fast information fast fingers fast food fast shipping fast words fast anger and fast judgment Our fight or flight impulses keep us on high alert aided by mobile devices that vibrate each time another crisis strikes All this fastness can easily interfere with a slow intentional life grounded in God's love Christian faith has deep treasures and practices to offer us How will we live and who will we be in this highly charged era where politics economics environment and social norms are under significant duress Come explore quieter more intentional ways of being and how these might attune us to the slow work of God in order that we might love one another and the world as God does Our chapters pair a lure to move fast with an invitation to slow Becoming slow to anger is an invitation to empathy slow to judge is an invitation to humility and slow to grasp is an invitation to contentment Ultimately each of these invitations is a movement toward God

The War on Sex David M. Halperin,Trevor Hoppe,2017-03-09 The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States This state of the art collection tells a different story while progress has been made in marriage equality reproductive rights access to birth control and other areas government and civil society are waging a war on stigmatized sex by means of law surveillance and social control The contributors document the history and operation of sex offender registries and the criminalization of HIV as well as highly punitive measures against sex work that do more to harm women than to combat human trafficking They reveal that sex crimes are punished more harshly than other crimes while new legal and administrative regulations drastically restrict who is permitted to have sex By examining how the ever intensifying war on sex affects both privileged and marginalized communities the essays collected here show why sexual liberation is indispensable to social justice and human rights Contributors Alexis Agathocleous Elizabeth Bernstein J Wallace Borchert Mary Anne Case Owen Daniel McCarter Scott De Orio David M Halperin Amber Hollibaugh Trevor Hoppe Hans Tao Ming Huang Regina Kunzel Roger N Lancaster Judith Levine Laura Mansnerus Erica R Meiners R Noll Melissa Petro Carol Queen Penelope Saunders Sean Strub Maurice Tomlinson Gregory Tomso

Stingl, 2015-12-16

Trouble is afoot in Digital Culture and Nerdland These are Alexander I Stingl's claims not the engine of freedom and democracy that they once were hailed to be this much is already clear in the wake of the snooping and surveillance crises that broke in recent years Digitalization is but another version of the coloniality of power and being that has been at work for decades and centuries He poses the question whether Digital Age possess the legitimacy that digitalization has claimed His response is critically realistic but he doesn't stop at a critique for criticism's sake Inspired by the ideas of decolonial scholars feminist science studies current biological and neuro cognitive research and sociologists capable of reflection and self criticism Stingl attempts to break the canvas of sociology and show that adding a third and decolonial dimension to the two dimensional sociological imagination is indeed possible He illustrates that it is possible that class rooms free speech on internet and the inequalities in the production and distribution of a new form of social capital digital cultural health care capital can be subjected to a decolonial perspective along a sociological line of inquiry if sociologists allow for relations with other disciplines and scholarship to be integrative conversations The goal of this book is not to offer results or closed arguments but to create instead platforms for thinking further opening new lines of inquiry and to argue that it is not enough to identify problems or to attempt solve the problems with politics or best practice solutions Instead he proposes we must learn to identify and make use of the opportunities that are produced by any problem Stingl's conclusion is in short that a sociology that takes the decolonial challenge and critique seriously can not be a sociological sub discipline or a sociology of a problem but it must be a sociology of opportunities
