The Test of War Doris M.. Condit, 1988 *History of the Office of the Secretary of Defense: The test of war, 1950-1953*
Steven L. Rearden, 1984 **Arc of Containment** Wen-Qing Ngoei, 2019-05-15 Arc of Containment recasts the history of American empire in Southeast and East Asia from World War II through the end of American intervention in Vietnam Setting aside the classic story of anxiety about falling dominoes Wen Qing Ngoei articulates a new regional history premised on strong security and sure containment guaranteed by Anglo American cooperation Ngoei argues that anticommunist nationalism in Southeast Asia intersected with preexisting local antipathy toward China and the Chinese diaspora to usher the region from European dominated colonialism to US hegemony Central to this revisionary strategic assessment is the place of British power and the effects of direct neocolonial military might and less overt cultural influences based on decades of colonial rule as well as the considerable influence of Southeast Asian actors upon Anglo American imperial strategy throughout the post war period Arc of Containment demonstrates that American failure in Vietnam had less long term consequences than widely believed because British pro West nationalism had been firmly entrenched twenty plus years earlier In effect Ngoei argues the Cold War in Southeast Asia was but one violent chapter in the continuous history of western imperialism in the region in the twentieth century **A Question of Balance** Michael Creswell, 2006-10-31 Challenging standard interpretations of American dominance and French weakness in postwar Western Europe Michael Creswell argues that France played a key role in shaping the cold war order In the decade after the war the U S government s primary objective was to rearm the Federal Republic of Germany within the framework of a European defense force the European Defense Community American and French officials differed however over the composition of the EDC and the rules governing its organization and use Although U S pressure played a part more decisive factors in both internal French politics and international French concerns ultimately led France to sanction the plan to rearm West Germany Creswell sketches the successful French challenge to the United States tracing the genuine sometimes heated debate between the two nations that ultimately resulted in security arrangements preferred by the French but acceptable to the Americans Impressively researched and vigorously argued A Question of Balance advances significantly our understanding of power politics and the rise of the cold war system in Western Europe *National Security Policy, 1969 - 1972: Vol. XXXIV* , **National Safety News** , 1928 Vol 73 include the section ASSE journal 1956 **US Covert Operations and Cold War Strategy** Sarah-Jane Corke, 2007-09-12 Based on recently declassified documents this book provides the first examination of the Truman Administration s decision to employ covert operations in the Cold War Although covert operations were an integral part of America s arsenal during the late 1940s and early 1950s the majority of these operations were ill conceived unrealistic and ultimately doomed to failure In this volume the author looks at three central questions Why were these types of operations adopted Why were they conducted in such a haphazard manner And why once it became clear that they were not working did

the administration fail to abandon them The book argues that the Truman Administration was unable to reconcile policy strategy and operations successfully and to agree on a consistent course of action for waging the Cold War This ensured that they wasted time and effort money and manpower on covert operations designed to challenge Soviet hegemony which had little or no real chance of success US Covert Operations and Cold War Strategy will be of great interest to students of US foreign policy Cold War history intelligence and international history in general *Foreign Relations of the United States* United States. Department of State,1969 *Realism and Human Rights in US Policy toward Greece, Turkey, and Cyprus* Sotiris Rizas,2018-10-15 The theme of this book is the interplay between Realism and Human Rights in the formulation of US policy towards Greece and Turkey with respect to the Cyprus and the Aegean disputes and the domestic politics of the two countries from the Truman to the Carter administration The policies of successive administrations and those of Johnson and Nixon in the 1960s and 1970s were formulated upon the requirements of containment as this was conceived in 1946 47 by the Truman administration Realpolitik dominated the agenda and issues related to values and norms were secondary although not unimportant Whenever a choice had to be made between realpolitik and human rights the former was the main consideration of American policy makers Although committed to the recalibration of US foreign policy toward human rights the Carter administration did not depart from these premises in the formulation of its policy in the Eastern Mediterranean
