Nsfas Application Form 2014 Unisa

Mahsood Shah, Sally Kift, Liz Thomas

Nsfas Application Form 2014 Unisa:

Fees Must Fall Susan Booysen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt. FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa. More broadly it radically questioned the socio-political dispensation resulting from the 1994 social pact between big business, the ruling elite and the liberation movement. The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left. Yet its objectives are more complex than those of earlier struggles. The student movement has challenged the hierarchical top down leadership system of university management and its double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance. University managements while on one level amenable to change have also co-opted students into their ranks to create co-responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution. This book maps the contours of student discontent a year after the start of the FeesMustFall revolt. Student voices dissect colonialism, improper compromises by the founders of democratic South Africa, feminism, worker rights and meaningful education. In depth assessments by prominent scholars reflect on the complexities of student activism, its impact on national and university governance and offer provocative analyses of the power of the revolt.

A GUIDE TO BEING AN EXTRAORDINARY STUDENT Jeremia Lelosa, Mahlodi Kgatle, Morongwa Maifo, Sibusiso Gama, Treasure Mokalapa, Tieho Hans, 2017-03-04 This is an inspirational and motivational book for students at University and or College as well as those who have aspirations of furthering their studies at university and or college post matric. The contributors from various institutions of higher learning in South Africa share their secrets to success in this collection of experiences. The contributors share their philosophies of success, they share strategies they have employed which managed to assist them in graduating. Students in particular, junior students will benefit immensely from the comprehensive coverage of core study skills and learning strategies presented in a straightforward and relatable manner. The book also helps students avoid academic exclusion and inspires them to achieve academic excellence. However, this book does not only cover academic success. It also covers leadership and entrepreneurship which are necessary elements in today's fast and changing world. Unlike any other student success guide books that are currently on the market, this book is unique and offers a broad perspective from many students. Again, the book is written by people with a lived experience. It offers an insider view. This book was written by leaders of Faculty of Best Advisory FBA, published and is distributed by Club Readership.

Transnational Education and Curriculum Studies John Chi-Kin Lee, Noel Gough, 2020-07-28 In recent years there has been increasing attention placed on international and transnational aspects of school and higher education curricula and the different research approaches and lenses through which these issues are studied. This edited volume explores diverse perspectives and discourses of curriculum studies contributed by

scholars both within and outside the majority world In addition it tackles both transnational cross border endeavours involving national governments and policy measures and the promises challenges and failings of those formal relationships The book consists of three sections The first section provides an introduction and overviews of transnational education in connection with curriculum studies schooling and higher education The second section deals with transnational and international perspectives on curriculum studies schooling and education The final third section highlights transnational and international perspectives on higher education This timely volume tackles the questions often posed by curriculum scholars and educational researchers around the possibility of a transnational approach to curriculum studies and how and if a common set of means can transcend national boundaries and sensitivities It looks at the common issues and problems across nations that international and transnational curriculum and educational research work could address This volume will appeal to researchers and policy makers interested in transnational education and curriculum studies

Student Retention and Success in Higher Education Mahsood Shah, Sally Kift, Liz Thomas, 2021-09-15 This book draws together international research to assess the quality of successful efforts to retain students The editors and contributors unite diverse global research from countries who have led student retention and success projects at national institutional faculty or program level with positive outcomes The book is underpinned by the philosophy that a more diverse student population requires higher education institutions to fundamentally change in order to facilitate the success of all students All of humanity its economies and societies are being pummelled by waves of pandemic induced crises in tandem with globalisation and demographic shifts Ultimately this book acts as a clarion to higher education institutions to better support and retain their students in order to create a more stable learning environment
