However, if the 1970-1980 period is taken as the base, the average annual rate of increase in the number of persons employed in agriculture is only 0.1 per cent, and the average annual increase in the number of persons employed in the non-agricultural sector is only 0.2 per cent. This shows that the rate of increase in the number of persons employed in the non-agricultural sector is only slightly higher than the rate of increase in the number of persons employed in agriculture.
