Putting Feminism to Work Suzanne Egan, 2020-11-23 This book explores the place of feminism and uptake of trauma in contemporary work against sexual violence Egan presents a refreshing alternative position on arguments about the co-optation or erasure of feminism within institutionalized professionalized services for sexual assault victims Using original research on Australian sexual assault services Putting

Feminism to Work effectively illustrates how feminist concepts and ideas have become routinized in contemporary services and enacted in daily practices with survivors and communities The book engages with yet resists the notion that feminist engagement with knowledge trauma based in psychiatry and clinical psychology is incompatible with feminism or inevitably reduces sexual violence to a problem of individual healing Indeed Egan argues that the productive ways practitioners integrate neurobiological understandings of trauma into their work suggests rich possibilities for reintroducing a non essentialist biology of the body into feminist theories of sexual violence Scholars students and practitioners working in the fields of violence against women sociology women s and gender studies health social work and policy studies as well as the emerging field of sociologically informed trauma studies will find this book of interest *Rostering Resources Manual*,
