November 2014 Zimsec

Hartnack, Andrew M.C.

November 2014 Zimsec:

Disability and Sexuality in Zimbabwe Christine Peta, 2017-10-25 Disabled women represent one of the most marginalised minority groups in the world hence they are largely silent while their sexuality is ignored suppressed forbidden and buried underneath the carpet Until recently most of the Global Northern published literature on the subject of the sexuality of disabled women has predominantly been constructed from hearsay and second hand narratives in studies which draw from the perspectives of parents service providers and advocates without much consultation of the relevant women By facilitating the voice of disabled women in Zimbabwe and illuminating their experiences of sexuality this book hopes to shift the experiences of sexuality of disabled women from the periphery of society to the fore Disability and Sexuality in Zimbabwe presents original research on an issue that is thus far not found in local research data Whilst addressing the paucity of literature on the subject the book informs policy and practice and enhances the existing body of knowledge by making recommendations towards the development of a disability and sexuality framework that is rooted in the African context This book is of interest to students and scholars of African studies disability studies sociology psychology social work nursing education studies geography women s and gender studies and interdisciplinary studies Additional audiences include a wide range of health social care and educational professionals and practitioners as well donors disabled people s organisations charities government departments NGOs supranational organisations and policy makers

Minerals Yearbook Mines Bureau, Geological Survey, Interior Department, 2018-04-19 This edition of the U S Geological Survey USGS Minerals Yearbook discusses the performance of the worldwide minerals and materials industries during year 2013 and provides background information to assist in interpreting that performance These annual reviews are designed to provide timely statistical data on mineral commodities in various countries This volume covers data from Asia and the Pacific Each report includes sections on government policies and programs environmental issues trade and production data industry structure and ownership commodity sector developments infrastructure and a summary outlook Audience Government employees and contractors as well as businesses and employees all working in mineral related trades especially with interests in statistics about mineral commodities overseas will find this resource invaluable

Minerals Yearbook ,2014

Ordered Estates Hartnack, Andrew M.C., 2016-07-31 There is a growing body of work on white farmers in Zimbabwe Yet the role played by white women so called farmers wives on commercial farms has been almost completely ignored if not forgotten For all the public role and overt power ascribed to white male farmers their wives played an equally important although often more subtle role in power and labour relations on white commercial farms This soft power took the form of maternalistic welfare initiatives such as clinics schools orphan programmes and women s clubs mostly overseen by a farmer s wife Before and after Zimbabwe s 1980 independence these played an important role in attracting and keeping farm labourers and governing their behaviour After independence they also became crucial to the way white farmers justified their continued ownership of most

of Zimbabwe's prime farmland This book provides the first comprehensive analysis of the role that farm welfare initiatives played in Zimbabwe's agrarian history Having assessed what implications such endeavours had for the position and well being of farmworkers before the onset of fast track land reform in the year 2000 Hartnack examines in vivid ethnographic detail the impact that the farm seizures had on the lives of farmworkers and the welfare programmes which had previously attempted to improve their lot Innovation and Competition in Zimbabwean Pentecostalism Ezra Chitando, 2021-01-28

Using the concept of a religious market this volume explores how African Traditional Religions and churches within Prophetic Pentecostalism in Zimbabwe seek to attract and retain members and clients Chapters provide extensive coverage of two of the leading churches namely Emmanuel Makandiwa's United Family International Church UFIC and Walter Magaya's Prophetic Healing and Deliverance Ministries PHD Contributors also explore the strategies adopted by Pentecostalism in general while others focus on African Traditional Religions They show that although Prophetic Pentecostalism has gained a significant share of the market in Zimbabwe and in Southern Africa in general it is not without controversy In particular it has been associated with the abuse of women and exploiting members and clients for financial gain Innovation and Competition in Zimbabwean Pentecostalism is an important contribution to understanding the marketization of religion

Making Politics in Zimbabwe's Second Republic Gordon Moyo, Kirk Helliker, 2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe's regime The temptation amongst Zimbabwean scholars has been to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa's Second Republic further analysing its political significance as well as risks and limitations While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt crisis as well as health and education Discussing the limitations of these different reform measures the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa's Second Republic The book appeals to students scholars and researchers of Zimbabwean and African studies political science and international relations as well as policymakers interested in a better understanding of political reform processes **The End of an Era? Robert Mugabe and a Conflicting Legacy** Mawere Munyaradzi, Ngonidzashe

Marongwe, 2018-09-17 Arguably one of the most polarising figures in modern times has been Robert Gabriel Mugabe the former President of the Republic of Zimbabwe The mere mentioning of his name raises a lot of debate and often times vicious if not irreconcilable differences both in Zimbabwe and beyond In an article titled Lessons of Zimbabwe Mahmood Mamdani succinctly captures the polarity thus It is hard to think of a figure more reviled in the West than Robert Mugabe and his land

reform measures however harsh have won him considerable popularity not just in Zimbabwe but throughout southern Africa. This together with his recent stylised ouster speaks volumes to his conflicted legacy. The divided opinion on Mugabe's legacy can broadly be represented first by those who consider him as a champion of African liberation a Pan Africanist an unmatched revolutionary and an avid anti imperialist who literally spoke the truth to Western imperialists. On the other end of the spectrum are those who seemingly paying scant regard to the predicament of millions of black Zimbabweans brutally dispossessed of their land and human dignity since the Rhodesian days have differentially characterised Mugabe as a rabid black fascist an anti white racist an oppressor and a dictator. Drawing on all these opinions and characterisations the chapters ensconced in this volume critically reflect on the personality leadership style and contributions of Robert Mugabe during his time in office from 1980 to November 2017. The volume is timely in view of the current contested transition in Zimbabwe and with regard to the ongoing consultations on the Land Question in neighbouring South Africa. It is a handy and richly documented text for students and practitioners in political science African studies economics policy studies development studies and global studies.

The African Conundrum Mawere, Munyaradzi, Mubaya, Tapuwa R., 2017-05-22

The African conundrum is rooted out of the historical philosophical and cultural bastardisation imbalances and inequalities which many post colonial African governments have always sought to address though with varying degrees of success since the 1960s. Lamentably this African conundrum is rarely examined in a systematic manner that takes into account the geopolitical milieu of the continent past and present. This volume seeks to interrogate and examine the extent of the impact of the geopolitical seesaw which seems poised to tip in favour of the Global North. The book grapples with the question on how Africa can wake up from its cavernous intellectual slumber to break away from both material and psychological dependency and achieve a transformative political and socio economic self reinvention and self assertion. While the African conundrum is largely a result of historic oppression and a resilient colonial legacy this book urges Africans to rethink their condition in a manner that makes Africa responsible and accountable for its own destiny. The book argues that it is through this rethinking that Africa can successfully transcend the logic of post imperial dependency.

Secured Transactions Law Reform in Africa Marek Dubovec, Louise Gullifer, 2019-10-31

Over the last few decades many countries have reformed their secured transactions law. One of the main reasons has been the clear link between reform and the availability of credit and the drive to improve access to finance particularly for micro small and medium sized enterprises. This book focuses particularly on developing economies in Africa which have legal frameworks influenced by English French Belgian Roman Dutch and other laws. Reform in this area of law across African countries has taken a number of forms which are explored and discussed in this book. Secured Transactions Law Reform in Africa is a mixture of a critical description of the pre reform law and practice and the reform process itself. It also includes a comparative analysis of the legal provisions and an examination of the early results of the reforms. The book sets out a road map for the future of secured transactions reform primarily in Africa but also

in other countries that have undertaken or are contemplating similar reforms This book is the second in a series of books about Secured Transactions Law in countries around the world and its reform both on a national and an international scale The first book Secured Transactions Law Reform Principles Policies and Practice was published in 2016 *Introduction to Crowd Management* Claudio Feliciani, Kenichiro Shimura, Katsuhiro Nishinari, 2022-03-03 This book will guide you in a simple and illustrative way through all aspects related to crowd behaviour including sociological theories methods of crowd control people detection and tracking and crowd simulation and prediction while examining previous accidents to learn from the past Crowds are a constant presence in most cities around the globe and mass gatherings are attracting an increasing number of people While experience can help manage large crowds and plan mass events knowledge on crowd behaviour is fundamental for successfully dealing with unexpected situations improving current practices and implementing state of the art technologies in management strategies After letting people laugh about the controversy on colliding pedestrians with this book two of the Ig Nobel laureates on pedestrian traffic will make you think and learn presenting through a collaborative approach combining theoretical with practical advice the science behind crowd dynamics and the importance it plays in our increasingly urbanized society Fundamental aspects related to crowd management are presented using simple concepts requiring little or no knowledge of mathematics or engineering Professionals involved in pedestrian traffic as well as students and researchers entering the field of crowd dynamics will find this book a useful interdisciplinary introduction on the subject exploring both fundamental background information and more specific topics related to crowd management

The Enigmatic Realm of **November 2014 Zimsec**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **November 2014 Zimsec** a literary masterpiece penned with a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of those who partake in its reading experience.
