

IB History: Paper 1 - The Move To Global War (Japanese, Italian and German Expansion)

Case Study 1: Japanese Expansion in East Asia (1931–1941)

1. Causes of Expansion

Background

- Japan was largely isolated up until the mid-19th century.
- Political power was led by the Emperor but was exerted by the aristocracy of daimyo (feudal lords) and a caste of samurai (feudal warriors).
- By the 19th century Japan was not industrialized, thus was vulnerable to be conquered and exploited by more powerful Western powers.
 - This had been the case for China which gave economic concessions.
- **1853:** Commodore Perry arrived with US warships demanding Japan to open for trade. This led to the signing of the Treaty of Kanagawa (1854)
 - The treaty was not well received as it appeared to surrender to Western intervention.
 - Moreover, this led to the decline of power of shoguns, who had been de-facto rulers and the restoration of Imperial power.
- **Meiji Restoration (1868)**
 - Power restored to emperor Meiji, who oversaw rapid modernisation of the country.
 - Abolishment of the shogun office, also leading to the dismantling of the feudal system.
 - Reforms in military, education and industry.

1.1: The impact of Japanese nationalism and militarism on foreign policy

- Japanese foreign policy
 - Desire for equality with the west - to be perceived as equal and have same treatment internationally

Thinking of Questions Peter Limm, 2015-09-23 This is not a conventional book It is designed to stimulate and challenge all people who are curious to find out about the world they inhabit and their place within it It does this by suggesting questions and lines of questioning on a wide range of topics The book does not provide answers or model arguments but prompts people to create their own questions and a reading log or journal To this end almost all questions have a list of books or articles to provide a starter for stimulating further reading Once you start you will be hooked Never stop questioning

The End of the Ottomans Hans-Lukas Kieser, Margaret Lavinia Anderson, Seyhan Bayraktar, Thomas Schmutz, 2019-04-25 In the early part of the twentieth century as Europe began its descent into the First World War the Ottoman world once the largest Empire in the Middle East began to experience a revolution which would culminate in the new secular Turkish state Alongside this in 1915 as part of an increasing nationalism it enacted a genocide against its Armenian citizens In this new study Hans Lukas Kieser marshals a dazzling array of scholars to re evaluate the approach and legacy of the Young Turks whose eradication of the Armenians from Asia Minor would have far reaching consequences Kieser argues that genocide led to today s crisis ridden Middle East and set in place a rigid state system whose effects are still felt in Turkey today Featuring new and groundbreaking work on the role of bureaucracy the actors outside of Istanbul and re centring Armenian agency in the genocide The End of the Ottomans is a vital new study of the Ottoman world the Armenian Genocide and of the Middle East

The ISIS Apocalypse William McCants, 2024-03-26 Based almost entirely on primary sources in Arabic including ancient religious texts and secret al Qaeda and Islamic State letters that few have seen William McCants s The ISIS Apocalypse explores how religious fervor strategic calculation and doomsday prophecy shaped the Islamic State s past and foreshadow its dark future The Islamic State is one of the most lethal and successful jihadist groups in modern history surpassing even al Qaeda Thousands of its followers have marched across Syria and Iraq subjugating millions enslaving women beheading captives and daring anyone to stop them Thousands more

have spread terror beyond the Middle East under the Islamic State's black flag. How did the Islamic State attract so many followers and conquer so much land? By being more ruthless, more apocalyptic and more devoted to state building than its competitors. The shrewd leaders of the Islamic State combined two of the most powerful yet contradictory ideas in Islam: the return of the Islamic Empire and the end of the world into a mission and a message that shapes its strategy and inspires its army of zealous fighters. They have defied conventional thinking about how to wage wars and win recruits. Even if the Islamic State is defeated, jihadist terrorism will never be the same. *Push Back* Judith Large, 2016-12-15

In 2009, after decades of conflict, the Sri Lankan government proclaimed the decisive defeat of the Liberation Tigers of Eelam. Subsequently, the state proved resistant to attempts by the UN and other international bodies to promote post-war reconciliation or reform. In this incisive new work, Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising Sinhalese nationalism, the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace. *Push Back* is vital reading not only for those interested in Sri Lanka but also for those concerned about the wider implications of the conflict for human rights, peace making and geopolitics. **Economic Woman** Frances Raday, 2019-05-14

The author introduces the concept of economic woman and makes her visible in duality with and opposition to the exclusive model of economic man. Economic man has epitomized neo-liberal capitalism which embraces competition and maximization of profit, resulting in a steep increase in economic inequality. The book demonstrates that women's inequality is a crucial factor in economic inequality which cannot be fully understood without relating to women's situation and that economic woman cannot thrive in the conditions of economic inequality created under global neo-liberalism. Emphasising the international human rights guarantees of women's right to equality in all fields of life, the author documents women's increased participation in political, public, financial and corporate institutions, employment and entrepreneurship, with some women reaching high profile positions. Nevertheless, using global data, she reveals that economic woman lags behind with a severe economic power deficit, an unfulfilled promise of equal employment opportunity, a gendered impact of poverty and barriers to gender equality in the family. The book analyses the trap of women's increased burden of breadwinning in the context of discriminatory laws and practices, infrastructural failures and policy gaps which preempt achievement of gender equality in economic life. The book is intended for the general reader, academics, students, policy makers and NGOs. It shows economic woman at a global crossroads between a universal paradigm of gender equality and pervasive barriers to equal economic opportunity. The author demonstrates that tackling gender inequality, restoring welfare priorities and reducing economic inequality are inextricably linked. Human rights and governments have a vital role to play in addressing them all to create a sustainable economic infrastructure for the lives of women and men. **Public Health Nursing** Marcia Stanhope, PhD, RN, FAAN, Jeanette Lancaster, PhD, RN, FAAN, 2015-10-07
