Cold War Science and the Transatlantic Circulation of Knowledge , 2015-11-02 Cold War Science and the Transatlantic Circulation of Knowledge delves

into how the Cold War as a global phenomenon shaped local conditions and decisions for science in light of US Europe relationships The articles in this volume edited by Jeroen van Dongen show how the western network in which science was circulated and produced was strongly conditioned by the state and its international relations The workings of secrecy the consequences of US hegemony and decolonization and the ambitions of post war recovery attempts were all mediated through the interference of the state and through its relative position in the network At the same time hubristic expectations prefigured in the state s relation to science Exploring Management John R. Schermerhorn, Jr., Daniel G. Bachrach, 2017-10-16 Exploring Management supports teaching and learning of core management concepts by presenting material in a straightforward conversational style with a strong emphasis on application With a focus on currency high interest examples and pedagogy that encourages critical thinking and personal reflection Exploring Management is the perfect balance between what students need and what instructors want World Congress on Medical Physics and Biomedical Engineering, June 7-12, 2015, Toronto, Canada David A. Jaffray, 2015-07-13 This book presents the proceedings of the IUPESM World Biomedical Engineering and Medical Physics a tri annual high level policy meeting dedicated exclusively to furthering the role of biomedical engineering and medical physics in medicine The book offers papers about emerging issues related to the development and sustainability of the role and impact of medical physicists and biomedical engineers in medicine and healthcare It provides a unique and important forum to secure a coordinated multileveled global response to the need demand and importance of creating and supporting strong academic and clinical teams of biomedical engineers and medical physicists for the benefit of human health Federal Register , 2012-05 **Caught in the Act** Cyril Julie, Lorna Holtman, Charles R. Smith, 2019-12-11 The research reported in Caught in the Act draws together the insights gained from a continuous professional development initiative for high school mathematics teachers teaching in low socio economic status and socially challenged environments in South Africa The chapters show the possibilities for enhancing achievement in school mathematics if a strength based approach is adopted to develop teaching with teachers and when their concerns are taken seriously The book demonstrates that the ecological relevance fitness for the context in which teachers are teaching of the goods developed and distributed by initiatives should be a major consideration to offer hope for sustainable implementation to improve school mathematics education The book is of interest to mathematics teachers school leaders mathematics curriculum advisors policy makers and researchers
